50 essays a portable anthology pdf: *Essays in Idleness* Kenko, Chomei, 2013-12-05 These two works on life's fleeting pleasures are by Buddhist monks from medieval Japan, but each shows a different world-view. In the short memoir *Hôjôki*, Chômei recounts his decision to withdraw from worldly affairs and live as a hermit in a tiny hut in the mountains, contemplating the impermanence of human existence. Kenko, however, displays a fascination with more earthy matters in his collection of anecdotes, advice and observations. From ribald stories of drunken monks to aching nostalgia for the fading traditions of the Japanese court, *Essays in Idleness* is a constantly surprising work that ranges across the spectrum of human experience. Meredith McKinney's excellent new translation also includes notes and an introduction exploring the spiritual and historical background of the works. Chômei was born into a family of Shinto priests in around 1155, at a time when the stable world of the court was rapidly breaking up. He became an important though minor poet of his day, and at the age of fifty, withdrew from the world to become a tonsured monk. He died in around 1216. Kenkô was born around 1283 in Kyoto. He probably became a monk in his late twenties, and was also noted as a calligrapher. Today he is remembered for his wise and witty aphorisms, 'Essays in Idleness'. Meredith McKinney, who has also translated Sei Shonagon's *The Pillow Book* for Penguin Classics, is a translator of both contemporary and classical Japanese literature. She lived in Japan for twenty years and is currently a visiting fellow at the Australian National University in Canberra. '[*Essays in Idleness* is] a most delightful book, and one that has served as a model of Japanese style and taste since the 17th century. These cameo-like vignettes reflect the importance of the little, fleeting futile things, and each essay is Kenko himself' Asian Student

50 essays a portable anthology pdf: *Speculative Everything* Anthony Dunne, Fiona Raby, 2013-12-06 How to use design as a tool to create not only things but ideas, to speculate about possible futures. Today designers often focus on making technology easy to use, sexy, and consumable. In *Speculative Everything*, Anthony Dunne and Fiona Raby propose a kind of design that is used as a tool to create not only things but ideas. For them, design is a means of speculating about how things could be—to imagine possible futures. This is not the usual sort of predicting or forecasting, spotting trends and extrapolating; these kinds of predictions have been proven wrong, again and again. Instead, Dunne and Raby pose “what if” questions that are intended to open debate and discussion about the kind of future people want (and do not want). *Speculative Everything* offers a tour through an emerging cultural landscape of design ideas, ideals, and approaches. Dunne and Raby cite examples from their own design and teaching and from other projects from fine art, design, architecture, cinema, and photography. They also draw on futurology, political theory, the philosophy of technology, and literary fiction. They show us, for example, ideas for a solar kitchen restaurant; a flypaper robotic clock; a menstruation machine; a cloud-seeding truck; a phantom-limb sensation recorder; and devices for food foraging that use the tools of synthetic biology. Dunne and Raby contend that if we speculate more—about everything—reality will become more malleable. The

ideas freed by speculative design increase the odds of achieving desirable futures.

50 essays a portable anthology pdf: Regarding the Pain of Others Susan Sontag, 2013-10-01 A brilliant, clear-eyed consideration of the visual representation of violence in our culture--its ubiquity, meanings, and effects. Considered one of the greatest critics of her generation, Susan Sontag followed up her monumental *On Photography* with an extended study of human violence, reflecting on a question first posed by Virginia Woolf in *Three Guineas*: How in your opinion are we to prevent war? For a long time some people believed that if the horror could be made vivid enough, most people would finally take in the outrageousness, the insanity of war. One of the distinguishing features of modern life is that it supplies countless opportunities for regarding (at a distance, through the medium of photography) horrors taking place throughout the world. But are viewers inured—or incited—to violence by the depiction of cruelty? Is the viewer's perception of reality eroded by the daily barrage of such images? What does it mean to care about the sufferings of others far away? First published more than twenty years after her now classic book *On Photography*, which changed how we understand the very condition of being modern, *Regarding the Pain of Others* challenges our thinking not only about the uses and means of images, but about how war itself is waged (and understood) in our time, the limits of sympathy, and the obligations of

conscience.

50 essays a portable anthology pdf: The Portable Walt Whitman Walt Whitman, 2003-12-30 A comprehensive collection of Whitman's most beloved works of poetry, prose, and short stories When Walt Whitman self-published *Leaves of Grass* in 1855 it was a slim volume of twelve poems and he was a journalist and poet from Long Island, little-known but full of ambition and poetic fire. To give a new voice to the new nation shaken by civil war, he spent his entire life revising and adding to the work, but his initial act of bravado in answering Ralph Waldo Emerson's call for a national poet has made Whitman the quintessential American writer. This rich cross-section of his work includes poems from throughout Whitman's lifetime as published on his deathbed edition of 1891, short stories, his prefaces to the many editions of *Leaves of Grass*, and a variety of prose selections, including *Democratic Vistas*, *Specimen Days*, and *Slang in America*. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

50 essays a portable anthology pdf: The Green Roosevelt Theodore Roosevelt, 2010 America's first Green president, Theodore Roosevelt's credentials as both naturalist and writer are as impressive as they are deep, emblematic of the twenty-sixth President's unprecedented breadth and energy. While Roosevelt authored policies that grew the public domain by a remarkable 230 million acres, he likewise penned over thirty-five books and an estimated 150,000 letters, many concerning the natural world. In between drafts both personal and political, scientific and sentimental, he quadrupled existing forest reserves while creating the nation's first fifty wildlife refuges and eighteen national monuments, among them the Grand Canyon, and five national parks, headlined by Yosemite. And Roosevelt was far more than a policy wonk and political do-gooder. John Muir, by his own admission, fairly fell in love with him. John Burroughs wrote that Roosevelt probably knew tenfold more natural history than all the presidents who preceded him. And the Smithsonian's Edmund Heller dubbed him the foremost field naturalist of our time. In addition to creating more than 150,000 new acres of national forest, Roosevelt made a new vogue of sportsmanship, famously refusing to shoot a lame bear in Mississippi and inspiring, thereof, an American icon and ecological fetish all at once: the Teddy Bear. Indeed, Roosevelt's Green undertakings produced a truly living legacy—one whose everlasting qualities he took robust pleasure in. Naturalist William Finley once suggested to TR that the President's environmental prescience would serve as one of the greatest memorials to [his] farsightedness, to which Roosevelt replied, Bully. I had rather have it than a hundred stone monuments. In fact, Roosevelt would have both—a lasting reputation for environmental protection and timeless stone monuments at Mount Rushmore and elsewhere built to honor his dramatic public policy initiatives. This book will be a critical resource for all those in American history (particularly presidential history), environmental history, environmental studies, nature studies, place studies, Agrarian studies, conservation studies, fish and wildlife biology/management, and ecology.

50 essays a portable anthology pdf: American Apocrypha Dan Vogel, Brent Lee Metcalfe, 2002 In the preceding pages, I have tried to show how a historical-critical view of the Book of Mormon illuminates some of its more interesting problems. Many questions remain, and many problems have yet to be discovered and analyzed. I myself have questions about the Book of Mormon's origins that I cannot yet answer. However, that fact does not diminish the certainty of my conclusion that the Book of Mormon is a modern text.

50 essays a portable anthology pdf: A Modest Proposal Jonathan Swift, 2024-05-30 In one of the most powerful and darkly satirical works of the 18th century, a chilling solution is proposed to address the dire poverty and overpopulation plaguing Ireland. Jonathan Swift presents a shockingly calculated and seemingly rational argument for using the children of the poor as a food source, thereby addressing both the economic burden on society and the issue of hunger. This provocative piece is a masterful example of irony and social criticism, as it exposes the cruel attitudes and policies of the British ruling class towards the Irish populace. Jonathan Swift's incisive critique not only underscores the absurdity of the proposed solution but also serves as a profound commentary on the exploitation and mistreatment of the oppressed. A Modest Proposal remains a quintessential example of satirical literature, its biting wit and moral indignation as relevant today as it was at the time of its publication. JONATHAN SWIFT [1667-1745] was an Anglo-Irish author, poet, and satirist. His deadpan satire led to the coining of the term »Swiftian«, describing satire of similarly ironic writing style. He is most famous for the novel Gulliver's Travels [1726] and the essay A Modest Proposal [1729].

50 essays a portable anthology pdf: Reading Stephen King Brenda Miller Power, Jeffrey D. Wilhelm, 1997 This collection of essays grew out of the Reading Stephen King Conference held at the University of Maine in 1996. Stephen King's books have become a lightning rod for the tensions around issues of including mass market popular literature in middle and high school English classes and of who chooses what students read. King's fiction is among the most popular of pop literature, and among the most controversial. These essays spotlight the ways in which King's work intersects with the themes of the literary canon and its construction and maintenance, censorship in public schools, and the need for adolescent readers to be able to choose books in school reading programs. The essays and their authors are: (1) Reading Stephen King: An Ethnography of an Event (Brenda Miller Power); (2) I Want to Be Typhoid Stevie (Stephen King); (3) King and Controversy in Classrooms: A Conversation between Teachers and Students (Kelly Chandler and others); (4) Of Cornflakes, Hot Dogs, Cabbages, and King (Jeffrey D. Wilhelm); (5) The 'Wanna Read' Workshop: Reading for Love (Kimberly Hill Campbell); (6) When 'IT' Comes to the Classroom (Ruth Shagoury Hubbard); (7) If Students Own Their Learning, What Do Teachers Do? (Curt Dudley-Marling); (8) Disrupting Stephen King: Engaging in Alternative Reading Practices (James Albright and Roberta F.

Hammett); (9) *Because Stories Matter: Authorial Reading and the Threat of Censorship* (Michael W. Smith); (10) *Canon Construction Ahead* (Kelly Chandler); (11) *King in the Classroom* (Michael R. Collings); (12) *King's Works and the At-Risk Student: The Broad-Based Appeal of a Canon Basher* (John Skretta); (13) *Reading the Cool Stuff: Students Respond to 'Pet Sematary'* (Mark A. Fabrizi); (14) *When Reading Horror Subliterature Isn't So Horrible* (Janice V. Kristo and Rosemary A. Bamford); (15) *One Book Can Hurt You...But a Thousand Never Will* (Janet S. Allen); (16) *In the Case of King: What May Follow* (Anne E. Pooler and Constance M. Perry); and (17) *Be Prepared: Developing a Censorship Policy for the Electronic Age* (Abigail C. Garthwait). Appended are a joint manifesto by National Council of Teachers of English (NCTE) and International Reading Association (IRA) concerning intellectual freedom; an excerpt from a teacher's guide to selected horror short stories of Stephen King; and the conference program.
