kambi kuttan: Indulekha Ōyyārattu Cantumēnōn, 2005 Perhaps the only novel to have been reprinted nearly every year for over a hundred years, Indulekha (1889) is widely held to be the first Malayalam novel. Often called an 'accidental' and 'flawed' work, at its core lies a love story. The setting of the novel is the Nair community of Kerala, which had for centuries practised polyandrous matriliney, a most unusual form of inheritance through the woman whom both property and authority flavoured. It gives us glimpses of prevalent social practices much debated amongst a people already under colonial pressure to change their ways of life. Written by a Nair, Indulekha is not a grandiose outpouring but the author's effort to achieve certain social goals: firstly, to create a novel much like those of the English authors he had read, and secondly, to illustrate Nair society at that time, both of which met with success. The novel influenced the deliberations of the Malabar Marriage Commission which it predated, and of which Chandum enon was a member. This novel will appeal to general readers interested in Indian writings in translation. Students of literature, history and culture, political and legal theory, and gender studies, will also find it useful.

kambi kuttan: Joothan Omprakash Valmiki, Arun Prabha Mukherjee, 2008-07-02 Omprakash Valmiki describes his life as an untouchable, or Dalit, in the newly independent India of the 1950s. Joothan refers to scraps of food left on a plate, destined for the garbage or animals. India's untouchables have been forced to accept and eat joothan for centuries, and the word encapsulates the pain, humiliation, and poverty of a community forced to live at the bottom of India's social pyramid. Although untouchability was abolished in 1949, Dalits continued to face discrimination,

economic deprivation, violence, and ridicule. Valmiki shares his heroic struggle to survive a preordained life of perpetual physical and mental persecution and his transformation into a speaking subject under the influence of the great Dalit political leader, B. R. Ambedkar. A document of the long-silenced and long-denied sufferings of the Dalits, Joothan is a major contribution to the archives of Dalit history and a manifesto for the revolutionary transformation of society and human consciousness.

They focus on the caste called Izhavas, a group that in the mid-19th century consisted of a small land-owning and titled elite and a large mass of landless and small tenants who were largely illiterate and considered untouchable, and who eked out a living by manual labor and petty trade. In the 20th century, Izhavas pursued mobility in many social arenas, both as a newly united caste and as families. The work considers how successful the mobility has been and looks at the effects on their society of an ethos of progress. Distributed by Stylus. kambi kuttan: *Divine Burdens* Eunice Hung, Franklin Veaux, 2021-10-15 Welcome to the far-future City, a post-scarcity Utopia with no disease, no war, and no want. The people worship AIs as gods through ritualized sex, and in return, the gods provide anything anyone could ever want from Providers in every room. But in this City, the gods demand a price for their benevolence. They

make use of those who worship them, for in a place with no scarcity and no money, the only thing you have to bargain with is your body. Three very different women embark on three separate paths to become the Sacrifice to, and Avatar of, their gods. The lives of each of these women will be forever altered by their experiences.

kambi kuttan: Fracking 101 Eric George, 2016-04-24 Fracking, or hydraulic fracturing to give its proper name, has become part of our lives recently, due to the massive exploitation of America's shale oil and gas fields. Along the way it has stirred up controversy, with passionate opponents fighting against the oil companies. The fight has generated a lot of heat, but not much understanding. This guide, written by some-one who knows what he is talking about takes a detached, neutral view of the subject. Without pushing a view for or against, it provides the factual background you need to form an opinion of your own. An Informed and Neutral Introduction Like most people I have heard of fracking, but did I really understand what it was? To answer honestly, no. I knew it had something to do with mining and was perhaps destructive to the land. To me, it was just one of those words of the moment. This guide has given me a real sense and understanding of what fracking is. It allowed me, someone who has no experience in this field, to learn about the pros and cons of fracking, without having the good and bad of it forced down my throat. If you want an informed and neutral introduction into fracking, then this is the guide for you. ~ Debbie Prewer

kambi kuttan: The Brazen Altar Eunice Hung, Franklin Veaux, 2021-05 Welcome to the City. In this place of peace and plenty, with no disease, no suffering, and no want, people find meaning in service to their gods. They know the gods were created by humans, of course. But the gods protect and provide for the people, so why wouldn't the people serve the gods? In a Utopian society, what better way to express service than through pleasure and faith? For Kheema and her seven fellow Potentials, that means entering the temple of the Sun God to undergo months of training and practice to determine which of them will be chosen as Sacrifice. On the day of the summer Solstice, the one chosen as Sacrifice must recite the entire litany from atop the temple, while enduring nonstop forced orgasms from dawn 'til dusk. For Terlyn, service means becoming part of the Garden, bound naked and asleep while worshippers help themselves to her body. Terlyn wakes in ecstasy over and over, only to fall asleep again. The experience changes her, and her relationship with her friend and lover Donvin, who visits her while she is part of the Garden. Ashi's service to the god known as the Wild entails competing with other worshippers in a forest that appears overnight to demonstrate her resilience and will, so that she might become part of a ritual involving an altar, a long row of cages, and the complete abandonment of the self. The three stories brush against each other, revealing the heart of the City, as the people of the City serve, or ask for enlightenment from, multiple gods at once.

kambi kuttan: The Game Changer Franklin Veaux, 2015-09 To make an open marriage work, Franklin and Celeste knew they needed to make sure no one ever came between them. That meant no overnights, no falling in love, and either one of them could ask the other to end an outside relationship if it became too much to deal with. It worked for nearly two decades--and their relentless focus on their own relationship let them turn a blind eye to the emotional wreckage they were leaving behind.

kambi kuttan: **The Pomodoro Technique** Francesco Cirillo, 2018-08-14 Discover the internationally acclaimed time management system that's gone viral on TikTok and has already changed millions of lives! Francesco Cirillo developed his famed system for improving productivity as a college student thirty years ago. Using a kitchen timer shaped like a pomodoro (Italian for tomato), Cirillo divided the time he spent working on a project into 25-minute intervals, with 5-minute breaks in between, in order to get more done, without interruptions. By grouping a number of pomodoros together, users can tackle a project of any length, and drastically improve their productivity, enhance their focus, and better achieve their goals. Originally self-published, and shared virally online, this new publication of The Pomodoro Technique includes several new chapters on how teams can use the pomodoro method to save time and increase productivity. The process underlying Cirillo's technique includes five stages: planning the day's tasks, tracking your efforts, recording your daily activities, processing what you have done, and visualizing areas for improvement. With this tried and tested method, readers can simplify their work, find out how much time and effort a task really requires, and improve their focus so they can get more done in the same amount of time each day.

kambi kuttan: *Fire in the Straw* Nick Lyons, 2020-10-27 **Named One of the New York Post's Best New Books to Read ** FIRE IN THE STRAW is the witty and deeply felt memoir of Nick Lyons, a man with an intrepid desire to reinvent himself—which he does, over and over. Nick Lyons shape shifts from reluctant student and graduate of the Wharton School, to English Professor, to husband of a fiercely committed painter, to ghost writer, to famous fly fisherman and award-winning author, to father and then grandfather, to Executive Editor at a large book publishing company, and finally to founder and publisher of his own successful independent press.. Written with the same warm and earthy voice that has enthralled tens of thousands of fly-fishing readers, Nick weaves the disparate

chapters of his life: from the moment his widowed mother drops him off at a grim boarding school at the age of five, where he spends three lonely and confusing years; to his love of basketball and pride playing for Penn; to the tumultuous period, in the army and after, when he found and was transformed by literature; to his marriage to Mari, his great love and anchor of his life. Suddenly, with a PhD in hand and four children, Nick embarks on a complex and thrilling ride, juggling family, fishing, teaching, writing, and publishing, the wolf always at his door. Against all odds, The Lyons Press survives, his children prosper, his wife's art flourishes, and his books and articles make him a household name. *Fire in the Straw* is a love story, a confessional, and a beautiful big-hearted memoir.

kambi kuttan: Half Life Jillian Cantor, 2021-03-23 The USA Today bestselling author of *In Another Time* reimagines the pioneering, passionate life of Marie Curie using a parallel structure to create two alternative timelines, one that mirrors her real life, one that explores the consequences for Marie and for science if she'd made a different choice. In Poland in 1891, Marie Curie (then Marya Skłodowska) was engaged to a budding mathematician, Kazimierz Zorawski. But when his mother insisted she was too poor and not good enough, he broke off the engagement. A heartbroken Marya left Poland for Paris, where she would attend the Sorbonne to study chemistry and physics. Eventually Marie Curie would go on to change the course of science forever and be the first woman to win a Nobel Prize. But what if she had made a different choice? What if she had stayed in Poland, married Kazimierz at the age of twenty-four, and never attended the Sorbonne or discovered radium? What if she had chosen a life of domesticity with a constant hunger for knowledge in Russian Poland where education for women was restricted, instead of studying science in Paris and meeting Pierre Curie? Entwining Marie Curie's real story with Marya Zorawska's fictional one, *Half Life* explores loves lost and destinies unfulfilled—and probes issues of loyalty and identity, gender and class, motherhood and sisterhood, fame and anonymity, scholarship and knowledge. Through parallel contrasting versions of Marya's life, Jillian Cantor's unique historical novel asks what would have happened if a great scientific mind was denied opportunity and access to education. It examines how the lives of one remarkable woman and the people she loved – as well as the world at large and course of science and history—might have been irrevocably changed in ways both great and small.

kambi kuttan: The Lives of Sri Aurobindo Peter Heehs, 2008 Since his death in 1950, Sri Aurobindo Ghose has been known primarily as a yogi and a philosopher of spiritual evolution who was nominated for the Nobel Prize in peace and literature. But the years Aurobindo spent in yogic retirement were preceded by nearly four decades of rich public and intellectual work. Biographers

usually focus solely on Aurobindo's life as a politician or sage, but he was also a scholar, a revolutionary, a poet, a philosopher, a social and cultural theorist, and the inspiration for an experiment in communal living. Peter Heehs, one of the founders of the Sri Aurobindo Ashram Archives, is the first to relate all the aspects of Aurobindo's life in its entirety. Consulting rare primary sources, Heehs describes the leader's role in the freedom movement and in the framing of modern Indian spirituality. He examines the thinker's literary, cultural, and sociological writings and the Sanskrit, Bengali, English, and French literature that influenced them, and he finds the foundations of Aurobindo's yoga practice in his diaries and unpublished letters. Heehs's biography is a sensitive, honest portrait of a life that also provides surprising insights into twentieth-century Indian history.
