melissa moore fitzpatrick: 935 Lies Charles Lewis, 2014-06-24 Facts are and must be the coin of the realm in a democracy, for government of the people, by the people and for the people, requires and assumes to some extent an informed citizenry. Unfortunately, for citizens in the United States and throughout the world, distinguishing between fact and fiction has always been a formidable challenge, often with real life and death consequences. But now it is more difficult and confusing than ever. The Internet Age makes comment indistinguishable from fact, and erodes authority. It is liberating but annihilating at the same time. For those wielding power, whether in the private or the public sector, the increasingly sophisticated control of information is regarded as utterly essential to achieving success. Internal information is severely limited, including calendars, memoranda, phone logs and emails. History is sculpted by its absence. Often those in power strictly control the flow of information, corroding and corrupting its content, of course, using newspapers, radio, television and other mass means of communication to carefully consolidate their authority and cover their crimes in a thick veneer of fervent racialism or nationalism. And always with the specter of some kind of imminent public threat, what Hannah Arendt called objective enemies.' An epiphanic, public comment about the Bush war on terror years was made by an unidentified White House official revealing how information is managed and how the news media and the public itself are regarded by those in power: [You journalists live] in what we call the reality-based community.

[But] that's not the way the world really works anymore. We're an empire now, and when we act, we create our own reality . . . we're history's actors . . . and you, all of you, will be left to just study what we do. And yet, as aggressive as the Republican Bush administration was in attempting to define reality, the subsequent, Democratic Obama administration may be more so. Into the battle for truth steps Charles Lewis, a pioneer of journalistic objectivity. His book looks at the various ways in which truth can be manipulated and distorted by governments, corporations, even lone individuals. He shows how truth is often distorted or diminished by delay: truth in time can save terrible erroneous choices. In part a history of communication in America, a *cri de coeur* for the principles and practice of objective reporting, and a journey into several notably labyrinths of deception, *935 Lies* is a valourous search for honesty in an age of casual, sometimes malevolent distortion of the facts.

These 12-week studies lead participants through books of the Bible and are made up of four basic components: (1) reflection questions that help readers engage the text at a deeper level; (2) "Gospel Glimpses" that highlight the gospel of grace throughout the book; (3) "Whole-Bible Connections" that show how any given passage connects to the Bible's overarching story of redemption, culminating in Christ; and (4) "Theological Soundings" that identify how historic orthodox doctrines are taught or reinforced throughout Scripture. With contributions from an array of influential pastors and church leaders, these gospel-centered studies will help Christians see and cherish the message of God's grace on every page of the Bible. Over the course of 12 weeks, this study connects Paul's letters to the Thessalonians to the lives of Christians today. These epistles encourage readers by reminding them of the salvation God will bring to all those whom he has called—strengthening them to pursue lives of holiness and love as they anticipate Jesus's return.

melissa moore fitzpatrick: James Richard Bauckham, 1999 In the history of interpretation the letter of James has been marginalized and compared unfavorably with the writings of Paul. James argues for an important canonical role for James, not subordinate to Paul, but a complementary scriptural voice. Richard Bauckham explores the historical and literary context of the text, discussing the significance of James as the brother of Jesus and leader of the early Jerusalem church. Major themes of James--wholeness, poverty, speech, ethics and prayer--are explored in relation to the current contexts of the contemporary reader of James. --From publisher's description.

It is 65 million years ago, during a cataclysmic moment in the earth's evolution, and Dusk, just months old, has no way of knowing he will play a pivotal role in creating a new world. What he does know is that he is different from the other newborn chiropters. Not content to use his large sails to glide down from the giant sequoia tree, Dusk discovers that if he flaps quickly enough, he can fly. But this strange gift that makes him feel like an outcast from the colony will also make him its saviour. After most of the colony is savagely massacred by the felids—the earth's first mammalian carnivores—Dusk must lead his fellow chiropters to a new home, and a new life. Against a tableau of disappearing dinosaurs and the ascent of the mammal kingdom, Oppel has created an adventure fantasy that sets the stage for the birth of the bats, the story of the forebears of Shade, the beloved hero of the Silverwing series. As with all Silverwing books, it is impossible to simply read Oppel's **Darkwing**; each of us enters a world of convincing characters, warring theologies, incredible natural history and a story that roars through head, heart and imagination. A tale that can be read as a stand-alone or as a prequel, **Darkwing** will be a welcome new classic for the millions of Kenneth Oppel fans.

But Christian parents know that teaching good morals isn't enough. Kids (and adults) need gospel power in order to wise up! Christians through the centuries have used the book of Proverbs to teach children the godly wisdom needed to navigate their everyday lives. *Wise Up*, by author and family pastor Marty Machowski, is a two-part discipleship resource geared to help children grown in the true wisdom that is only found in Christ. *Wise Up* offers two separate discipleship tools. The first product is a family devotional, *Wise Up: Ten-Minute Family Devotions in Proverbs*, which will help make learning the truths of Proverbs fun and memorable for the whole family. Each compact session features Bible reading, discussion questions, a fun activity, and a song to keep children engaged in making gospel-motivated, good choices. Each wisdom theme in *Wise Up* is carefully and repeatedly connected to the good news of Jesus's life, death, resurrection, and coming return. *Wise Up* moves families beyond the practical wisdom of Proverbs to connect the teaching of Solomon to God's larger story of salvation. Also available in this series is the companion twelve-week curriculum, which is designed to connect the teaching of Proverbs to God's larger story of salvation. Children will learn that Solomon's wisdom, life, and failures all point to something greater than Solomon—they point to Jesus. The goal of this curriculum is to present the wisdom of Proverbs against the backdrop of the gospel to show children that real wisdom comes only as we depend on Jesus for daily help and forgiveness. Each lesson includes Bible reading, discussion questions, object lessons, a fun activity, and songs for families from the companion *Walking with the Wise* music CD by Sovereign Grace Music. This curriculum includes three learning levels—preschool and kindergarten (ages 4-6), elementary (ages 6-9), and middle school (ages 10-12).

This beautifully illustrated children's book celebrates how God reveals himself to his people in the movements of worship. Sitting in a worship service for any young child can be a difficult experience. One minute everyone is singing loudly, the next everyone is sitting and listening quietly (without talking!). Sometimes the adults know something that should be said out loud, like, Thanks be to God! How did they know what to say? How do people know when to talk to one another and shake hands? *God Made Me for Worship* focuses on teaching kids about the key liturgical movements in a worship gathering, including the call to worship, praise and adoration, confession, assurance and passing the peace, ministry of the Word and sacraments, and benediction and sending. Kennedy guides parents to help their kids understand why we're intentional about worship, encouraging them to engage—not just to manage behavior during a worship gathering, but to invite kids to respond to God along with the whole church body.

But too often as women, we try to find this safety in our roles and relationships, our professional accomplishments, or our picture-perfect homes. And as we do, our souls shrink smaller and smaller. It's because these things aren't made to hold us. In *Made for More*, Hannah Anderson invites you to re-imagine yourself, not simply as a set of roles and categories, but as a person destined to live in the fullness of God Himself. Starting with our first identity as image bearers, Hannah shows how Jesus Christ makes us people who can reflect His nature through our unique callings. She also explores how these deeper truths affect the practical realities that we face as women—how does being an image bearer shape our pursuit of education, our work, and even our desire for holistic lives? Because you are made in God's image, you will only ever know yourself—only ever be yourself—as you find your identity in Him. Find it now.
