**nectar in a sieve audiobook: Nectar in a Sieve** Kamala Markandaya, 2018-10-11 “This Is a Novel to Retain in Your Heart and Library” —Milwaukee Journal In the sun-baked fields of rural India, Rukmani and Nathan toil side by side, their love woven into the very fabric of the land. Their days are marked by the rhythm of seasons—the planting of rice saplings, the monsoon rains that breathe life into parched soil, and the harvest that sustains their family. But life is not idyllic. Famine stalks the village, and hunger gnaws at their bellies. Rukmani clings to hope, her spirit unyielding even as the world shifts around her. She witnesses the encroachment of modernity—the distant hum of factories, the allure of city lights—and wonders if progress will bring salvation or destruction. As Rukmani’s children grow, so do their dreams. Selvam, the eldest, seeks education beyond the village; Irawaddy, the daughter, yearns for love and security. Through it all, Rukmani remains the heart of their home, her hands stained with the colors of life—earth, blood, and sweat. Nectar in a Sieve is a testament to the resilience of the human spirit. Kamala Markandaya’s prose weaves a tapestry of love, loss, and endurance. Amidst the harsh realities of poverty and change, Rukmani’s unwavering love for Nathan becomes a beacon—a nectar that sustains them through hardship. “An elemental book. It has something better than power, the truth of distilled experience.” —New York Herald Tribune “Unique in poetic beauty, in classically restrained and controlled tragedy.”—Dorothy Canfield Fisher, noted author and critic “Will wring your hearts.”—Associated Press “A superb job in telling her story.”—Christian Science Monitor

**nectar in a sieve audiobook: Thousand Pieces of Gold** Ruthanne Lum McCunn, 2015-07-21 The extraordinary biographical novel about a Chinese-American woman who fought for independence and dignity in the American West—“an important contribution to the history of pioneer women” (Ms. Magazine) Lalu Nathoy’s father called his thirteen-year-old daughter his treasure, his “thousand pieces of gold”—yet when famine strikes northern China in 1871, he is forced to sell her. Polly, as Lalu is later called, is sold to a brothel, sold again to a slave merchant bound for America, auctioned to a saloonkeeper, and offered as a prize in a poker game. With over a quarter of a million copies sold, Thousand Pieces of Gold is a classic of biographical historical fiction that stars an unforgettable Chinese-American heroine whose struggles put a human face on the anti-immigration policies of the past and present.

**nectar in a sieve audiobook: A Handful of Rice** Kamala Markandaya, 1966 Kamala Markandaya, whose Nectar in a Sieve (1955) was a miniature epic about India's poor, returns to the earlier concerns of that book in A Handful of Rice. Ravi is a village son who has left his desolate, destitute home for the promise of the city. There he falls into the company of similarly rootless young men, presided over by the wily city boy, Damodar, who appears fitfully through the book as a seducer to criminal and get-rich-quick schemes which Damodar is clever enough to survive and thrive by. By a chance misdeed, Ravi becomes acquainted with the tailor Apu and his family; Apu's daughter Nalini wins his heart and brings him from the streets into the already crowded household, first as Apu's apprentice, then his son-in-law. The author recreates the life of the respectable poor with moving fidelity as they face the problems of food, illness, unemployment. When Apu dies, the still rebellious but worn Ravi, now a father of three and head of the household, cannot keep his customers. After the death of his son, he reverts to the street, but Damodar now discards him as

unfit for dangerous enterprises, and he ends storming the rice supplies with the mob. A portrait in poverty, which is part of the history of our times. It is less compelling than the earlier book as a novel while managing the same concerned compassion.--Kirkus

**nectar in a sieve audiobook: The Autobiography of My Mother** Jamaica Kincaid, 1996-01-15 From the recipient of the 2010 Clifton Fadiman Medal, an unforgettable novel of one woman's courageous coming-of-age Jamaica Kincaid's *The Autobiography of My Mother* is a story of love, fear, loss, and the forging of a character, an account of one woman's inexorable evolution evoked in startling and magical poetry. Powerful, disturbing, stirring, Jamaica Kincaid's novel is the deeply charged story of a woman's life on the island of Dominica. Xuela Claudette Richardson, daughter of a Carib mother and a half-Scottish, half-African father, loses her mother to death the moment she is born and must find her way on her own. Kincaid takes us from Xuela's childhood in a home where she could hear the song of the sea to the tin-roofed room where she lives as a schoolgirl in the house of Jack Labatte, who becomes her first lover. Xuela develops a passion for the stevedore Roland, who steals bolts of Irish linen for her from the ships he unloads, but she eventually marries an English doctor, Philip Bailey. Xuela's is an intensely physical world, redolent of overripe fruit, gentian violet, sulfur, and rain on the road, and it seethes with her sorrow, her deep sympathy for those who share her history, her fear of her father, her desperate loneliness. But underlying all is the black room of the world that is Xuela's barrenness and motherlessness.

**nectar in a sieve audiobook:** Liquid Intelligence: The Art and Science of the Perfect Cocktail Dave Arnold, 2014-11-10 Winner of the 2015 James Beard Award for Best Beverage Book and the 2015 IACP Jane Grigson Award. A revolutionary approach to making better-looking, better-tasting drinks. In Dave Arnold's world, the shape of an ice cube, the sugars and acids in an apple, and the bubbles in a bottle of champagne are all ingredients to be measured, tested, and tweaked. With *Liquid Intelligence*, the creative force at work in Booker & Dax, New York City's high-tech bar, brings readers behind the counter and into the lab. There, Arnold and his collaborators investigate temperature, carbonation, sugar concentration, and acidity in search of ways to enhance classic cocktails and invent new ones that revolutionize your expectations about what a drink can look and taste like. Years of rigorous experimentation and study—botched attempts and inspired solutions—have yielded the recipes and techniques found in these pages. Featuring more than 120 recipes and nearly 450 color photographs, *Liquid Intelligence* begins with the simple—how ice forms and how to make crystal-clear cubes in your own freezer—and then progresses into advanced techniques like clarifying cloudy lime juice with enzymes, nitro-muddling fresh basil to prevent browning, and infusing vodka with coffee, orange, or peppercorns. Practical tips for preparing drinks by the pitcher, making homemade sodas, and building a specialized bar in your own home are exactly what drink enthusiasts need to know. For devotees seeking the cutting edge, chapters on liquid nitrogen, chitosan/gellan washing, and the applications of a centrifuge expand the boundaries of traditional cocktail craft. Arnold's book is the beginning of a new method of making drinks, a problem-solving approach grounded in attentive observation and creative techniques. Readers will learn how to extract the sweet flavor of peppers without the spice, why bottling certain drinks beforehand beats shaking them at the bar, and why quinine powder and succinic acid lead to the perfect gin and tonic. *Liquid Intelligence* is about satisfying your curiosity and refining your technique, from red-hot pokers to the elegance of an old-fashioned. Whether you're in search of astounding drinks or a one-of-a-kind journey into the next generation of cocktail making, *Liquid Intelligence* is the ultimate standard—one that no bartender or drink enthusiast should be without.

**nectar in a sieve audiobook:** *Pleasure City* Kamala Markandaya, 2011-10-15 An unlikely friendship helps create beauty and luxury in a coastal paradise. When British multinational AIDCORP lands a project to build a tourist complex—Shalimar—in a coastal village in south India, Mr Tully, one of the directors, arrives at the village to oversee the construction. There he meets Rikki, an orphaned fisher boy, and a deep and abiding friendship arises between the two, notwithstanding the gulf between their lives. The fisher community is torn when half the fishermen begin to work with the company, leaving the other half to suffer from a shrinking catch. Rikki must find a way to pay off his parents' debt, but he cannot abandon his life near the sea. Thanks to his fluent English, learned from an old English couple who used to live in the village, he begins to work for Tully. Though they come from vastly different worlds, Tully and Rikki learn to accept and value each other: a human relationship forged from the shared human need for goodwill, affection and understanding. It is with the help of this alliance of mutual respect that Shalimar is successfully built, and Tully manages to restore Avalon, a mansion his grandfather built in the area. *Pleasure City* explores the issues of the interaction between East and West, native tradition and imported technology, in the context of the scientific and technical development of an India that is, well after Independence, racing ahead to forge its postcolonial identity. It is an identity that, like Shalimar,

grows from collaboration between East and West, and mutual exchange of ideas and knowledge.

**nectar in a sieve audiobook: What Work Is** Philip Levine, 2011-08-31 Winner of the National Book Award in 1991 "This collection amounts to a hymn of praise for all the workers of America. These proletarian heroes, with names like Lonnie, Loo, Sweet Pea, and Packy, work the furnaces, forges, slag heaps, assembly lines, and loading docks at places with unglamorous names like Brass Craft or Feinberg and Breslin's First-Rate Plumbing and Plating. Only Studs Terkel's *Working* approaches the pathos and beauty of this book. But Levine's characters are also significant for their inner lives, not merely their jobs. They are unusually artistic, living 'at the borders of dreams.' One reads *The Tempest* 'slowly to himself'; another ponders a diagonal chalk line drawn by his teacher to suggest a triangle, the roof of a barn, or the mysterious separation of 'the dark from the dark.' *What Work Is* ranks as a major work by a major poet . . . very accessible and utterly American in tone and language." —Daniel L. **nectar in a sieve audiobook: The Therapy of Desire** Martha C. Nussbaum, 2013-06-06 The Epicureans, Skeptics, and Stoics practiced philosophy not as a detached intellectual discipline but as a worldly art of grappling with issues of daily and urgent human significance. In this classic work, Martha Nussbaum maintains that these Hellenistic schools have been unjustly neglected in recent philosophic accounts of what the classical tradition has to offer. By examining texts of philosophers such as Epicurus, Lucretius, and Seneca, she recovers a valuable source for current moral and political thought and encourages us to reconsider philosophical argument as a technique through which to improve lives. Written for general readers and specialists, *The Therapy of Desire* addresses compelling issues ranging from the psychology of human passion through rhetoric to the role of

philosophy in public and private life.
