minerva circle delta sigma theta: In Search of Sisterhood Paula J. Giddings, 2009-10-06 In

Search of Sisterhood is the definitive history of the largest Black women's organization in the United States, and is filled with compelling, fascinating anecdotes told by the Delta Sigma Theta members themselves, illustrated with rare early photographs of the Delta women. This book contains the story of Delta Sigma Theta Sorority (DST), and details the increasing involvement of Black women in the political, social, and economic affairs of America. Founded at a time when liberal arts education was widely seen as either futile, dangerous, or impractical for Blacks—and especially Black women—DST is, in Giddings's words, a compelling reflection of Black women's aspirations for themselves and for society. Giddings notes that unlike other organizations with racial goals, Delta Sigma Theta was created to change and benefit individuals rather than society. As a sorority, it was formed to bring women together as sisters, but at the same time to address the divisive, often class-related issues confronting Black women in our society. There is, in Giddings's eyes, a tension between these goals that makes Delta Sigma Theta a fascinating microcosm of the struggles of Black women and their organizations. DST members have included Mary McLeod Bethune, Mary Church Terrell, Margaret Murray Washington, Shirley Chisholm, Barbara Jordan, and, on the cultural side, Leontyne Price, Lena Horne, Ruby Dee, Judith Jamison, and Roberta Flack.

minerva circle delta sigma theta: *One Woman's Army* Charity Adams Earley, 2000-09-05 When America entered World War II, the surge of patriotism was not confined to men. Congress authorized the organization of the Women's Army Auxiliary Corps (later renamed Women's Army Corps) in 1942, and hundreds of women were able to join in the war effort. Charity Edna Adams became the first black woman commissioned as an officer. Black members of the WAC had to fight the prejudices not only of males who did not want women in their man's army, but also of those who could not accept blacks in positions of authority or responsibility, even in the segregated military. With unblinking candor, Charity Adams Earley tells of her struggles and successes as the WAC's first black officer and as commanding officer of the only organization of black women to serve overseas during World War II. The 6888th Central Postal Directory Battalion broke all records for redirecting military mail as she commanded the group through its moves from England to France and stood up to the racist slurs of the general under whose command the battalion operated. The Six Triple Eight stood up for its commanding officer, supporting her boycott of segregated living quarters and recreational facilities. This book is a tribute to those courageous women who paved the way for patriots, regardless of color or gender, to serve their country.

minerva circle delta sigma theta: The Covenant in Action Tavis Smiley, 2007-02-01 The Covenant in Action was developed to continue the inspirational spirit of the Covenant With Black America and to empower people to take effective action to achieve THE Covenant goals. The information, tools, and ideas presented in The Covenant in Action will enable and inspire people to become agents of change in their respective communities and to become partners in a larger Covenant movement. The Covenant in Action is organized into three parts: (1) stories about the projects and actions that everyday people have undertaken over the past year that were inspired by the Covenant With Black America; (2) motivational essays from young Black activists who are on the ground impacting their environments; and (3) a toolkit outlining steps you can take to organize, connect, and act. The toolkit contains not only traditional action strategies, but includes innovative approaches to organizing and community building that will result in stronger, more bonded communities that are reflective of their history and past experiences. The Covenant With Black America was only the first step. The Covenant in Action toolkit will prime and prepare individuals and communities to actually move the Covenant book into action.

minerva circle delta sigma theta: African American Leadership Ronald W. Walters, Robert C. Smith, 1999-04-01 CHOICE 2000 Outstanding Academic Title Written by two preeminent scholars of the subject, this book provides a panoramic view of the theory, research, and praxis of African

American leadership. Walters and Smith offer a great deal to students of black leadership, as well as important strategy and policy recommendations for black leaders. The book first presents a comprehensive assessment of the social science research literature on black leadership. It finds that older studies (1930s to 1960s) dealt with the nascent formation of leadership theory, where blacks were located predominantly in the context of southern politics and had to adopt a conservative to moderate leadership style. The authors also review and evaluate research on black leadership from the 1970s to the present and suggest attention be given to studies of leadership that involve community level leadership, female leaders, black mayors, and black conservatives. *African American Leadership* also focuses on the practice of black leadership. It begins with an analysis of the roles of black leadership and historical analysis of strategies or strategy shift. The authors then provide illustrative case studies of the styles of black leadership. They examine the continued utilization of mass mobilization in the form of boycotts, direct action, and mass demonstrations and marches. The issue of collective black leadership or the framework of unity—an illusive but necessary form of community organization—is also explored, and serious attention is given to issues, recruitment, and deployment.

Lubkemann, 2017-05-09 *From No Return: The 221-Year Journey of the Slave Ship São José* tells of the 2014 recovery of artifacts from the São José slave ship. In 1794, the ship capsized, and while its captain, crew and about half of the captives were rescued, 212 slaves drowned. The ship is a singular lens through which to view the unfathomable scope of the Middle Passage. *From No Return* chronicles the efforts of the Smithsonian National Museum of African American History and Culture founding director Lonnie Bunch and collaborators to locate the ship and unearth its ungodly objects, including some of the 1,130 iron bars the São José crew used to balance the weight of the ship's human cargo, remnants of shackles, and many other artifacts. The book features full-page illustrations of these objects along with reproductions of the ship's manifest, the captain's deposition, and other archival documents that together tell a moving tale of a moment of discovery that will forever be a part of history.

This is the authors' answer to the need they found in their teaching experience for easy versions of Greek hero tales, and the result is most successful . . . vigorous and appealing. Included are Hercules, Perseus, Theseus, Orpheus, Meleager, and Jason. -- School Library Journal, starred review

minerva circle delta sigma theta: The Learned Banqueters, Volume VII Athenaeus, 2011-01-05 In *The Learned Banqueters*, Athenaeus describes a series of dinner parties at which the guests quote extensively from Greek literature. The work (which dates to the very end of the second century CE) is amusing reading and of extraordinary value as a treasury of quotations from works now lost. Athenaeus also preserves a wide range of information about different cuisines and foodstuffs, the music and entertainments that ornamented banquets, and the intellectual talk that was the heart of Greek conviviality. S. Douglas Olson has undertaken to produce a complete new edition of the work, replacing the previous Loeb Athenaeus (published under the title *Deipnosophists*).
