Understanding Najah Islamic Bank's Core Principles

Najah Islamic Bank operates on a foundational set of principles derived directly from Islamic jurisprudence. These principles are not merely guidelines but the bedrock upon which all its financial products and services are built. The core tenets of Islamic banking, as embodied by Najah Islamic Bank, revolve around fairness, justice, and the prohibition of Riba (interest). This commitment ensures that all transactions are transparent, ethical, and beneficial to all parties involved. The bank actively seeks to avoid speculative transactions and endeavors to finance only Sharia-compliant businesses and projects, contributing to a more equitable and sustainable economic environment. This ethical compass guides every decision, from product development to customer relations, fostering trust and confidence among its clientele.

Prohibition of Riba (Interest)

One of the most fundamental aspects of Najah Islamic Bank's operations is the strict adherence to the prohibition of Riba, which translates to interest or usury. Unlike conventional banking systems that rely heavily on interest-based loans and deposits, Najah Islamic Bank structures its financial instruments around profit-sharing, leasing, and fee-based services. This means that the bank earns its returns through legitimate trade and investment activities, rather than charging interest on money lent. This principle promotes a more equitable distribution of risk and reward, ensuring that financial gains are tied to real economic activity and productivity. For customers, this translates into a banking experience free from the ethical concerns associated with interest.

Emphasis on Ethical Investments

Najah Islamic Bank is deeply committed to ethical investing. This involves meticulously screening all potential investments to ensure they align with Islamic values. Prohibited sectors typically include those involved in gambling, alcohol, pork production, conventional financial services (that deal with Riba), and anything deemed exploitative or harmful to society. The bank prioritizes investments in businesses and projects that contribute positively to the economy and society, such as those in real estate, agriculture, manufacturing, and technology. This dedication to ethical investments not only satisfies religious requirements but also fosters a sense of social responsibility and sustainable development within the communities it serves.

Profit and Loss Sharing (PLS) Model

A cornerstone of Najah Islamic Bank's deposit and investment products is the Profit and Loss Sharing (PLS) model. Under this arrangement, depositors are not guaranteed a fixed rate of return. Instead, their funds are invested in Sharia-compliant ventures, and the profits (or losses) generated are shared between the bank and the depositor based on a pre-agreed ratio. This model creates a partnership between the bank and its customers, fostering transparency and shared risk. It aligns the interests of both parties, as both are motivated to ensure the success of the underlying investments. This approach is a stark contrast to the interest-based model of conventional banking.

Personal Banking Solutions

For individual customers, Najah Islamic Bank provides a range of banking services that are both convenient and compliant with Islamic law. These include:

- **Mudarabah Savings Accounts:** These accounts operate on the principle of profit-sharing. Funds deposited are invested by the bank in Sharia-compliant ventures, and the profits are shared between the customer and the bank based on a predetermined ratio.
- **Murabahah for Personal Finance:** This involves the bank purchasing an asset (e.g., a car, furniture) at the customer's request and then selling it to the customer at a cost-plus-profit margin, payable in installments. This is a cost-plus-financing method, not interest-based lending.
- **Ijara (Leasing) Facilities:** Similar to Murabahah, Ijara involves the bank purchasing an asset and leasing it to the customer for a specified period and rental fee. At the end of the lease term, ownership may be transferred to the customer.

Najah Islamic Bank extends its Sharia-compliant services to businesses of all sizes, offering solutions that support growth and operational efficiency. These services are structured to facilitate trade, investment, and capital requirements in an ethical manner:

Najah Islamic Bank: A Comprehensive Guide

Introduction: Understanding the Principles of Islamic Banking and Najah's Role

Islamic banking operates on principles fundamentally different from conventional banking. It adheres strictly to Sharia (Islamic law), prohibiting practices like *riba* (interest) and speculation. Instead, it focuses on risk-sharing, ethical investments, and promoting social justice. Najah Islamic Bank, a hypothetical example for this ebook, exemplifies this approach. This comprehensive guide delves into its operations, services, and impact, providing a clear understanding of its role within the broader context of the Islamic financial system. Understanding Najah Islamic Bank requires understanding the foundational principles of Islamic finance. This section will introduce those principles and place Najah within that context. The bank's mission statement (hypothetical) would likely emphasize ethical and socially responsible financial practices, aiming to serve its customers while adhering strictly to Islamic principles.

Chapter 1: Core Principles of Islamic Finance: The Foundation of Najah Islamic Bank

The core principles underpinning Najah Islamic Bank are the pillars of Islamic finance. Let's examine these key elements:

Sharia Compliance: All operations and transactions must adhere strictly to Sharia law, as interpreted by a Sharia board of scholars. This board provides legal opinions (fatwas) on the permissibility of specific transactions and financial instruments. Najah Islamic Bank's commitment to Sharia compliance is paramount, ensuring all its activities are ethically sound.

Prohibition of Riba (Interest): Interest is strictly forbidden in Islam. Instead of charging interest on loans, Najah Islamic Bank utilizes various profit-sharing and risk-sharing models to structure its financing options. This creates a partnership between the bank and the borrower, fostering mutual benefit and aligning interests.

Risk-Sharing: Islamic finance emphasizes risk-sharing between the bank and its clients. This contrasts sharply with conventional banking where risk is largely borne by the borrower. In Najah's operations, this risk-sharing is evident in financing structures like *Mudarabah* (profit-sharing) and *Musharakah* (joint venture).

Ethical Investments: Najah Islamic Bank will not invest in businesses deemed *Haram* (forbidden) under Islamic law, such as alcohol, gambling, or pork products. This focus on ethical investing guides all investment decisions, aligning the bank's activities with its religious and ethical framework.

Chapter 2: Najah Islamic Bank's Product and Service Offerings: A Diverse Portfolio

Najah Islamic Bank provides a range of Sharia-compliant financial products and services to cater to diverse customer needs.

Financing Options: Instead of conventional loans, Najah offers several Islamic financing options, including:

Murabaha: A cost-plus financing method where the bank purchases an asset on behalf of the client and resells it at a markup price.

Ijara: A leasing agreement where the bank owns the asset and leases it to the client for a predetermined period, with an option to purchase at the end of the lease.

Mudarabah: A profit-sharing partnership where the bank provides capital and the client manages the business, profits being shared according to a pre-agreed ratio.

Deposit Accounts: Najah Islamic Bank offers various deposit accounts that comply with Sharia principles. These accounts typically earn returns based on the bank's profit rather than interest.

Investment Products: The bank provides Sharia-compliant investment opportunities, allowing customers to participate in ethical and profitable ventures. These could include investments in real estate, infrastructure projects, or other permissible sectors.

Other Services: Najah might also offer additional services such as Islamic debit and credit cards, online banking facilities, and financial advisory services tailored to meet the specific needs of Muslim customers.

Chapter 3: Najah Islamic Bank's Role in Economic Development: A Force for Good

Najah Islamic Bank plays a vital role in promoting economic development within its community and beyond.

Social Impact Initiatives: Najah might also actively participate in social initiatives, such as supporting charitable causes, investing in community development projects, and promoting financial literacy programs. These initiatives demonstrate the bank's commitment to social responsibility.

Chapter 4: Najah Islamic Bank's Regulatory Framework and Compliance: Maintaining Integrity

Najah Islamic Bank's operations are closely regulated to ensure compliance with both Sharia law and national/international banking regulations.

Adherence to Sharia Law: The bank's operations are governed by a Sharia board that ensures all activities are in line with Islamic principles. Regular audits and reviews ensure ongoing compliance.

Central Bank Regulations: Najah must adhere to all regulations set by the relevant central bank, including capital adequacy requirements, risk management standards, and anti-money laundering regulations.

International Standards: The bank likely adheres to international standards of financial reporting and transparency to maintain a high level of integrity and accountability.

Chapter 5: Comparing Najah Islamic Bank with Conventional Banks: A Critical Analysis

Najah Islamic Bank, operating within the ethical framework of Islamic finance, prioritizes risk-sharing, profit-sharing, and ethical investments, while conventional banks primarily rely on interest-based lending and investment strategies.

Operations: Najah's operational framework revolves around profit- and loss-sharing models, while conventional banks focus on interest-based transactions.

Products: The product offerings differ significantly. Najah's products are designed to be Sharia-compliant, while conventional banks offer products without explicit ethical considerations.

najah islamic bank: Islamic Development in Palestine Stephen Royle, 2016-10-04 This book assesses the capabilities of an Islamic approach in aiding self-organisation by examining the case of the occupied Palestinian territories in conjunction with a comparative analysis of four other nations. Three main mechanisms of Islamic development are explored; finance, microfinance and charity. Identifying the need to recognise the non-linear nature of societal interaction at the individual, community and state levels, the book uses complexity theory to better understand development. It assesses the role of Islamic development at macro and micro levels and identifies issues with rigid and hierarchical policy making.

najah islamic bank: Can Islamic Banking Increase Financial Inclusion? Mr.Sami Ben Naceur, Mr.Adolfo Barajas, Mr.Alexander Massara, 2015-02-13 The paper analyses existing country-level information on the relationship between the development of Islamic banking and financial inclusion. In Muslim countries—members of the Organization for Islamic Cooperation (OIC)—various indicators of financial inclusion tend to be lower, and the share of excluded individuals citing religious reasons for not using bank accounts is noticeably greater than in other countries; Islamic banking would therefore seem to be an effective avenue for financial inclusion. We found, however, that although physical access to financial services has grown more rapidly in the OIC countries, the use of these services has not increased as quickly. Moreover, regression analysis shows evidence of a positive link to credit to households and to firms for financing investment, but this empirical link remains tentative and relatively weak. The paper explores reasons that this might be the case and suggests several recommendations to enhance the ability of Islamic banking to promote financial inclusion.

najah islamic bank: Islamic Banking and Financial Crisis Habib Ahmed, 2013-12-16 Examines the resilience of Islamic banking during the global financial crisis and lessons for risk management. Do Islamic financial institutions perform better than their conventional counterparts during periods of financial stress? To what extent do systems for managing risk have to be adapted for Islamic financial institutions, given the unique characteristics of their assets and liabilities and the need for shari'ah compliance? These issues have come to prominence since the global financial crisis of 2007-8 and the subsequent recession, and are addressed in this book. The challenges for Islamic financial institutions are explored in an international post Basel II system where banks are required to have more capital and liquidity. Governance issues are also examined, given their influence on client and investor perceptions and their ultimate implications for institutional stability and sustainability. Offers an in-depth assessment of how Islamic banks weathered the financial crisis and what lessons can be learnt. Asks whether Islamic banks are inherently more stable than conventional banks during periods of economic stress. Examines how Islamic banks manage risk, focusing on liquidity risk and the use of forward contracts to mitigate currency risk. Appraises the work of internal shari'ah audit units and the use of shari'ah reports to reduce non-compliance risks. najah islamic bank: Teaching and Research Methods for Islamic Economics and Finance Mohd Ma'Sum Billah, 2022-03-10 Methods and techniques adopted in teaching, training, learning, research, professional development, or capacity building are generally standardized across

most traditional disciplines, particularly within developing countries. This is not the case, however, when it comes to the Islamic disciplines, and, in particular, in relation to the study of Islamic economics and finance, which is influenced by conventional standards and techniques. This is primarily due to the lack of availability of the requisite standards and mechanisms designed within the spirit of Maqsid al-Shari'ah. This book offers a unique resource and a comprehensive overview of the contemporary methods and smart techniques available for teaching, learning, and researching Islamic eco-finance, and it presents solutions to the challenges in implementing them. Further, the book gives deep insight into the most appropriate methodologies that could be employed empirically to explore, model, analyze, and evaluate Islamic finance theories and models, respectively. It also gives recommendations for improving learning, teaching, and research outcomes in Islamic eco-finance. The book also addresses how, in this advanced technological era, smart tools like artificial intelligence, machine learning, big data, Zoom, and the internet of things can be adapted to help equip students, researchers, and scholars with smart skills. The book will enable those studying Islamic economics and finance to grasp the appropriate tools for research and learning. Additionally, the Islamic economics and finance sector is growing at a significant rate and therefore requires the upskilling and capacity building of its human resources; thus, the book will also be highly beneficial for practitioners involved in the industry.

najah islamic bank: Leadership, Innovation and Entrepreneurship as Driving Forces of the Global Economy Rachid Benlamri, Michael Sparer, 2016-12-01 This volume aims to outline the fundamental principles behind leadership, innovation and entrepreneurship and show how the interrelations between them promote business and trade practices in the global economy. Derived from the 2016 International Conference on Leadership, Innovation, and Entrepreneurship (ICLIE), this volume showcases original papers presenting current research, discoveries and innovations across disciplines such as business, social sciences, engineering, health sciences and medicine. The pace of globalization is increasing at a rapid rate and is primarily driven by increasing volume of trade, accelerating pace of competition among nations, freer flows of capital and increased level of cooperation among trading partners. Leadership, innovation, and entrepreneurship are key driving forces in enhancing this phenomenon and are among the major catalysts for contemporary businesses trading in the global economy. This conference and the enclosed papers provides a platform in which to disseminate and exchange ideas to promote a better understanding of current issues and solutions to challenges in the globalized economy in relation to the fields of entrepreneurship, business and economics, technology management, and Islamic finance and management. Thus, the theories, research, innovations, methods and practices presented in this book will be of use to researchers, practitioners, student and policy makers across the globe.

najah islamic bank: Social Justice and Islamic Economics Toseef Azid, Lutfi Sunar, 2019-02-25 Under the rule of the current economic order, social injustice is ever-increasing. Issues such as poverty, inhumane working conditions, inadequate wages, social insecurity and an unhealthy labor market continue to persist. Many states are also unable to produce policies capable of resolving these problems. The characteristics of the capitalist system currently render it unable to provide social justice. In fact, on the contrary, the system reinforces these injustices and prevents economic and social welfare from reaching the masses. Many Muslim scholars have analyzed and, indeed, criticized this system for years. This book argues that an alternative and more equitable theoretical and practical economical order can be developed within the framework of Islamic principles. On the other hand, the experiences of societies under the rule of Muslim governments do not always seem to hold great promise for an alternative understanding of social justice. In addition, the behaviors of Muslim individuals within their economic lives are mostly shaped by the necessities of daily economic conditions rather than by the tenets of Islam that stand with social justice. Until 1990s, studies of Islamic economics made connections between finance and the notion of social justice, but work conducted more recently has neglected this issue. It is therefore evident that the topic of social justice needs to be revisited in a more in-depth manner. Filling an important gap in existing literature, the book uniquely connects social justice and Islamic finance and economics on

this topic. Theory, practice and key issues are presented simultaneously throughout this book, which is based on the writings of a number of eminent scholars.

najah islamic bank: FinTech in Islamic Financial Institutions M. Kabir Hassan, Mustafa Raza Rabbani, Mamunur Rashid, 2022-11-30 This book explores several challenges facing FinTech in Islamic financial institutions. Firstly, large banks and financial institutions in countries with updated and innovative technological channels will earn the technology arbitrage from FinTech. This 'size' puzzle may create a challenge for Islamic financial institutions that are of smaller size and from technologically less-developed countries. Secondly, while access to FinTech is getting broader day by day, usage of FinTech is still limited due to personal and governance-related limitations. Moreover, the level of awareness of the emerging FinTech services (i.e., bitcoin, blockchain, etc.) remains extremely poor even among the residents of technologically-advanced countries. Thirdly, use of FinTech by Islamic financial institutions is limited to Islamic banking, to users from developed countries, among young customers, and for a limited number of traditional banking services such as the deposits and payment services. Also, banks hope to use FinTech to increase the size of a new breed of technology-savvy depositors and loan customers to achieve economies of scale, which may help stabilize the banking sector. Automation in Islamic banks and the participation of Islamic financial institutions in blockchain and bitcoin domains require extensive research from Shariah-compliance as well as market and consumer-related grounds. With all the opportunities and challenges of FinTech—promoting inclusion, easier loan monitoring, and risk of Shariah non-compliance—this book explores the implications for Islamic financial institutions and will be of interest to scholars, researchers, and students of Islamic finance and financial technology.

najah islamic bank: *Handbook of Empirical Research on Islam and Economic Life* M. Kabir Hassan, 2016-12-30 In Islamic jurisprudence, a comprehensive ethic has been formulated governing how business and commerce should be run, how accountability to God and the community is to be achieved, and how banking and finance is to be arranged. This Handbook examines how well these values are translated into actual performance. It explores whether those holding true to the system are hindered and put at a disadvantage or whether the Islamic institutions have been able to demonstrate that faith-based activities can be rewarding, both economically and spiritually.

najah islamic bank: **Hamas** Matthew Levitt, 2008-10-01 How does a group that operates

terror cells and espouses violence become a ruling political party? How is the world to understand and respond to Hamas, the militant Islamist organization that Palestinian voters brought to power in the stunning election of January 2006? This important book provides the most fully researched assessment of Hamas ever written. Matthew Levitt, a counterterrorism expert with extensive field experience in Israel, the West Bank, and Gaza, draws aside the veil of legitimacy behind which Hamas hides. He presents concrete, detailed evidence from an extensive array of international intelligence materials, including recently declassified CIA, FBI, and Department of Homeland Security reports. Levitt demolishes the notion that Hamas' military, political, and social wings are distinct from one another and catalogues the alarming extent to which the organization's political and social welfare leaders support terror. He exposes Hamas as a unitary organization committed to a militant Islamist ideology, urges the international community to take heed, and offers well-considered ideas for countering the significant threat Hamas poses.

najah islamic bank: *Identity and Religion in Palestine* Loren D. Lybarger, 2018-06-05 This remarkable book examines how the Islamist movement and its competition with secular-nationalist factions have transformed the identities of ordinary Palestinians since the first Palestinian uprising, or intifada, of the late 1980s. Drawing upon his years living in the region and more than eighty in-depth interviews, Loren Lybarger offers a riveting account of how activists within a society divided by religion, politics, class, age, and region have forged new identities in response to shifting

conditions of occupation, peace negotiations, and the fragmentation of Palestinian life. Lybarger personally witnessed the tragic days of the first intifada, the subsequent Oslo Peace Process and its failures, and the new escalation of violence with the second intifada in 2000. He rejects the simplistic notion that Palestinians inevitably fall into one of two camps: pragmatists who are willing to accept territorial compromise, and extremists who reject compromise in favor of armed struggle. Listening carefully to Palestinians themselves, he reveals that the conflicts evident among the Islamists and secular nationalists are mirrored by the internal struggles and divided loyalties of individual Palestinians. *Identity and Religion in Palestine* is the first book of its kind in English to capture so faithfully the rich diversity of voices from this troubled part of the world. Lybarger provides vital insights into the complex social dynamics through which Islamism has reshaped what it means to be Palestinian.

najah islamic bank: Revolutionaries and Reformers Barry Rubin, 2012-02-01 Islamist movements seeking power today are faced with difficult choices regarding strategy, ranging from armed struggle to electoral efforts. An emerging alternative consists of a rethinking of Islamist politics, where the goal of a totally Islamic polity would be abandoned in favor of some form of Islamic-oriented society. In this reformulation, Islamist politics would function as a pressure group to make society more Islamic, reinforcing the walls of semi-separate internal communities and reinterpreting Islam in more liberal ways. The September 11, 2001 terror attack on the United States, however, demonstrates that the radical approach remains attractive to many Islamists. Addressing these issues, the contributors look at the countries where Islamist movements have been most important. Case studies of revolutionary and reformist groups are followed by chapters discussing future alternatives for Islamist politics, presenting arguments both advocating and critical of a potential liberal, reformist, interest-group Islamism.

najah islamic bank: Divine Money Emanuel Schaeublin, 2023 Zakat giving or mutual aid is a

sacred practice in Islam. Where government and public safety nets fail, zakat serves as a form of social security in Muslim communities. In *Divine Money*, Emanuel Schaeublin shows how zakat institutions and direct zakat donations function in contemporary Palestine. Based on his ethnographic fieldwork in the city of Nablus, Schaeublin traces zakat flows as they provide critical support to households living under military rule and security surveillance. In the neighborhoods of Nablus, the Islamic tradition shapes public life. Many enact simple gifts of money or food as an expression of God's generosity and justice. How do such invocations of the divine enable people to negotiate responsibilities and tensions arising from differences in wealth in Palestinian society? What is the role of zakat in confronting political repression and economic instability?--

najah islamic bank: *Students and Resistance in Palestine* Ido Zelkowitz, 2014-12-17 Exploring the Palestinian Student Movement from an historical and sociological perspective, this book demonstrates how Palestinian national identity has been built in the absence of national institutions, whilst emphasizing the role of higher education as an agent of social change, capable of crystallizing patterns of national identity. najah islamic bank: *Hamas and Civil Society in Gaza* Sara Roy, 2013-11-10 A revealing look at Islamic social institutions in Gaza and the West Bank Many in the United States and Israel believe that Hamas is nothing but a terrorist organization, and that its social sector serves merely to recruit new supporters for its violent agenda. Based on Sara Roy's extensive fieldwork in the Gaza Strip and West Bank during the critical period of the Oslo peace process, *Hamas and Civil Society in Gaza*

shows how the social service activities sponsored by the Islamist group emphasized not political violence but rather community development and civic restoration. Roy demonstrates how Islamic social institutions in Gaza and the West Bank advocated a moderate approach to change that valued order and stability, not disorder and instability; were less dogmatically Islamic than is often assumed; and served people who had a range of political outlooks and no history of acting collectively in support of radical Islam. These institutions attempted to create civic communities, not religious congregations. They reflected a deep commitment to stimulate a social, cultural, and moral renewal of the Muslim community, one couched not only—or even primarily—in religious terms. Vividly illustrating Hamas's unrecognized potential for moderation, accommodation, and change, Hamas and Civil Society in Gaza also traces critical developments in Hamas's social and political sectors through the Second Intifada to today, and offers an assessment of the current, more adverse situation in the occupied territories. The Oslo period held great promise that has since been squandered. This book argues for more enlightened policies by the United States and Israel, ones that reflect Hamas's proven record of nonviolent community building.

najah islamic bank: Muslim Politics Dale F. Eickelman, James Piscatori, 2018-06-05 In this updated paperback edition, Dale Eickelman and James Piscatori explore how the politics of Islam play out in the lives of Muslims throughout the world. They discuss how recent events such as September 11 and the 2003 war in Iraq have contributed to reshaping the political and religious landscape of Muslim-majority countries and Muslim communities elsewhere. As they examine the role of women in public life and Islamic perspectives on modernization and free speech, the authors probe the diversity of the contemporary Islamic experience, suggesting general trends and challenging popular Western notions of Islam as a monolithic movement. In so doing, they clarify concepts such as tradition, authority, ethnicity, pro-test, and symbolic space, notions that are crucial to an in-depth understanding of ongoing political events. This book poses questions about ideological politics in a variety of transnational and regional settings throughout the Muslim world. Europe and North America, for example, have become active Muslim centers, profoundly influencing trends in the Middle East, Africa, Central Asia, and South and Southeast Asia. The authors examine the long-term cultural and political implications of this transnational shift as an emerging generation of Muslims, often the products of secular schooling, begin to reshape politics and society--sometimes in defiance of state authorities. Scholars, mothers, government leaders, and musicians are a few of the

protagonists who, invoking shared Islamic symbols, try to reconfigure the boundaries of civic debate and public life. These symbolic politics explain why political actions are recognizably Muslim, and why Islam makes a difference in determining the politics of a broad swath of the world.

najah islamic bank: *Israeli Democracy at the Crossroads* Raphael Cohen-Almagor, 2013-09-13 In recent years, the discussion about Israel was dominated by post-Zionist, post-Israeli opinions. The book aims to tackle timely concerns, like Israel's fight against terror, its relationships with the Palestinians, the mutual relationships between the civic society and the army, the status of women in society, and separation between state and religion. Particular attention is given to probing the state of human rights, minority rights, and health rights. The volume also discusses the tensions between liberalism and socialism, between state and religion, and between immigration groups, most notably resulting from the immigration from the former Soviet Union.

najah islamic bank: Conflict Transformation and the Palestinians Alpaslan Ozerdem, Chuck Thiessen, Mufid Qassoum, 2016-12-01 This book explores the challenges of transforming the violent conflict between the State of Israel and the Palestinians into just peace. There are many challenges involved in the bottom-up transformation of the violent structures that sustain the State of Israel's occupation of Palestinian territory. This book examines these structures as it assesses the actors and strategies that are contributing to the termination of cycles of violence and oppression. Consisting of contributions from both peace practitioners and academics who have conducted research within Israel and the occupied territory, the volume utilises a multidisciplinary perspective to examine promising strategies for conflict transformation in Israel and the occupied Palestinian territory. Moreover, it spells out the types of nonviolent strategy that are being used to expose and undermine occupation structures, and surveys the manner in which a variety of key actors are working towards the transformation of the ongoing conflict. As a whole, the volume presents a proposal for the transformation of the conflict between Palestinians and the State of Israel that embraces the constructive potential of conflict, engages with power asymmetry, and pushes for justice and accountability. This book will be of much interest to students of conflict resolution, peace studies,

Middle Eastern studies, the Arab-Israeli conflict, and IR in general.

najah islamic bank: Armies of the Young David M. Rosen, 2005 Children have served as soldiers throughout history. They fought in the American Revolution, the Civil War, and in both world wars. They served as uniformed soldiers, camouflaged insurgents, and even suicide bombers. Indeed, the first U.S. soldier to be killed by hostile fire in the Afghanistan war was shot in ambush by a fourteen-year-old boy. Does this mean that child soldiers are aggressors? Or are they victims? It is a difficult question with no obvious answer, yet in recent years the acceptable answer among humanitarian organizations and contemporary scholars has been resoundingly the latter. These children are most often seen as especially hideous examples of adult criminal exploitation. In this provocative book, David M. Rosen argues that this response vastly oversimplifies the child soldier problem. Drawing on three dramatic examples—from Sierra Leone, Palestine, and Eastern Europe during the Holocaust—Rosen vividly illustrates this controversial view. In each case, he shows that children are not always passive victims, but often make the rational decision that not fighting is worse than fighting. With a critical eye to international law, *Armies of the Young* urges readers to reconsider the situation of child combatants in light of circumstance and history before adopting uninformed child protectionist views. In the process, Rosen paints a memorable and unsettling picture of the role of children in international conflicts.
