military memorial service script is a vital component in honoring the fallen, providing a structured and respectful framework for remembrance. This comprehensive guide explores the essential elements of crafting a meaningful military memorial service script, from opening remarks and readings to the poignant act of folding the flag and the final departure. We will delve into the significance of each section, offering guidance on selecting appropriate military traditions, poems, and prayers to ensure the service truly reflects the sacrifices made. Understanding the nuances of a military memorial service script empowers families and service members to create a tribute that is both deeply personal and universally understood in its solemnity and honor.

Understanding the Purpose of a Military Memorial Service Script

A military memorial service script serves as more than just an agenda; it is a carefully curated roadmap designed to guide mourners through a solemn ceremony of remembrance. The primary purpose is to honor the life and service of a deceased service member, acknowledging their dedication, sacrifice, and the profound impact they had on their unit, family, and nation. This script ensures that the service flows respectfully, incorporates essential military customs, and provides a comforting structure for those grieving. It's about celebrating a life lived in service and providing a dignified farewell that aligns with the traditions and values of the armed forces.

The Significance of Military Traditions in the Script

Military traditions are deeply woven into the fabric of memorial services, offering a sense of continuity, shared experience, and profound respect. These traditions, passed down through generations, provide a familiar and comforting element for fellow service members and acknowledge the unique bond shared within the military community. Incorporating elements like the playing of Taps, the rifle salute, and the presentation of the folded flag are not merely symbolic; they represent a collective acknowledgment of duty, sacrifice, and the ultimate price paid. A well-crafted military memorial service script ensures these traditions are performed with precision and solemnity, enhancing the emotional weight and historical significance of the occasion.

Tailoring the Script to the Individual Service Member

While military traditions provide a universal framework, a truly impactful military memorial service script is one that is personalized to reflect the unique character, accomplishments, and spirit of the individual being honored. This involves moving beyond generic phrases to include specific anecdotes, personal achievements, and cherished memories. Including elements that highlight the service member's personality, their passions outside of duty, and the specific roles they fulfilled can make the service resonate more deeply with attendees. The goal is to create a narrative that celebrates not just their military career, but the entirety of their life and the legacy they leave behind.

Key Components of a Military Memorial Service Script

A well-structured military memorial service script typically follows a logical progression, guiding attendees through various stages of remembrance and honor. Each component plays a crucial role in creating a cohesive and meaningful ceremony. From the initial gathering to the final disposition, the script ensures that all necessary elements are included and executed with respect and dignity.

Opening Remarks and Welcome

The opening remarks set the tone for the entire service, establishing an atmosphere of reverence and respect. This section typically includes a warm welcome to all attendees, acknowledging their presence and shared purpose. It's an opportunity to briefly state the reason for the gathering - to honor the fallen service member - and to express gratitude for their service and sacrifice. The officiant, often a chaplain or a senior military member, will usually introduce themselves and outline the order of the service, providing a sense of preparedness and shared understanding for what is to come.

Invocation and Opening Prayer

The invocation or opening prayer is a solemn moment designed to invoke divine presence and seek comfort and guidance during the difficult time of mourning. This prayer can be delivered by a chaplain, a clergy member of the family's faith, or even a designated individual within the military. The content of the prayer often focuses on themes of peace, remembrance, eternal rest for the departed, and strength for those left behind. The inclusion of an invocation ensures that the spiritual aspect of grief and remembrance is acknowledged, offering solace and hope.

Readings and Tributes

This section is dedicated to personal reflections and external expressions of honor. It can include a variety of readings, such as poems, scripture passages, or poignant quotes that resonate with the life and service of the deceased. Family members, close friends, or fellow service members may be invited to share eulogies or personal anecdotes that paint a vivid picture of the individual's character, contributions, and impact. These tributes are invaluable for celebrating the person beyond their military role and for allowing the community to share in cherished memories.

Military Honors and Rituals

The inclusion of specific military honors is a hallmark of these services, signifying the unique nature of the deceased's service. This often includes the playing of "Taps," a bugle call that evokes a sense of solemn farewell. A rifle salute, where uniformed personnel fire three volleys into the air, is another powerful ritual that symbolizes respect and final honors. The ceremonial folding of the United States flag, accompanied by a recitation of its symbolism, is a profoundly moving tradition, representing the nation's gratitude and the ultimate sacrifice made by the service member. Each of these rituals is performed with precision and solemnity.

Presentation of the Flag

The presentation of the folded American flag is one of the most significant and emotionally charged moments in a military memorial service. This is typically done when the deceased served honorably and is entitled to this recognition. The flag is meticulously folded into a precise triangle, symbolizing a life of service. It is then presented to the next of kin as a token of the nation's deep appreciation for their loved one's honorable service and sacrifice. The act is accompanied by words of thanks and acknowledgment of the profound loss experienced by the family and the nation.

Benediction and Closing Remarks

The benediction and closing remarks bring the formal aspects of the service to a close. The benediction often offers a final prayer for peace, comfort, and spiritual well-being, seeking a blessing for the departed and those in mourning. The officiant will then provide final remarks, reiterating the enduring legacy of the service member and offering words of solace and hope. This is also the point where attendees are informed of any subsequent arrangements, such as a reception or interment, ensuring a clear and organized transition following the ceremony.

Crafting a Respectful and Meaningful Military Memorial Service Script

Creating a military memorial service script requires sensitivity, attention to detail, and a deep understanding of military customs. The aim is to produce a document that not only guides the proceedings but also serves as a lasting testament to the service member's life and sacrifice. This involves careful selection of content, consideration of the audience, and a commitment to honoring the deceased with dignity.

Selecting Appropriate Readings and Music

The choice of readings and music can significantly enhance the emotional resonance of a memorial service. For readings, consider poems that speak to themes of bravery, sacrifice, loss, and enduring memory. Religious texts can offer comfort and spiritual solace, while inspirational quotes can uplift and inspire. Music selections should be somber yet hopeful, reflecting the solemnity of the occasion without being overly bleak. Military hymns,

patriotic songs, or pieces that held personal significance for the service member can be particularly poignant. The overarching goal is to select material that honors the individual and provides comfort to those present.

Incorporating Personalization and Family Input

A military memorial service script should always be a collaborative effort, with significant input from the family. Allowing family members to share their memories, select readings, or even suggest specific traditions ensures that the service is a true reflection of the deceased's life and their family's wishes. This personalization makes the ceremony deeply meaningful and helps to validate the family's grief while celebrating their loved one. Open communication between the officiant and the family is paramount in achieving this.

Logistical Considerations for the Service

Beyond the content, practical logistics are crucial for a smooth and dignified military memorial service. This includes determining the appropriate venue, coordinating with military personnel for honors such as the color guard or firing party, and ensuring that audio-visual equipment is functional for any planned presentations or music. The order of service should be clearly communicated to all participants, including speakers, musicians, and honor guards. Attention to these details allows the family to focus on grieving and remembrance, knowing that the ceremony is being handled with care and professionalism.

The Role of the Officiant in Delivering the Script

The officiant plays a pivotal role in bringing the military memorial service script to life. Their demeanor, tone, and delivery can greatly influence the emotional atmosphere of the ceremony. A compassionate, calm, and respectful delivery ensures that the solemnity of the occasion is maintained. The officiant acts as a guide, leading attendees through the various stages of the service with empathy and authority. They must be knowledgeable about military customs and protocols to ensure their accurate execution, providing a sense of order and continuity throughout the tribute.

Frequently Asked Questions

What are the essential elements of a military memorial service script?

Essential elements typically include an invocation/opening prayer, a welcome and introduction of key figures, readings (religious, secular, or poetry), eulogies or remembrances from family and friends, military honors (such as a flag folding ceremony or a bugle call like Taps), a committal or final prayer, and a benediction/closing remarks. The specific order and inclusion of elements can be personalized.

How can I personalize a military memorial service script to honor the deceased service member?

Personalization can be achieved by including specific anecdotes, favorite quotes, reflections on their military career and values, their impact on loved ones, and incorporating elements that were meaningful to them. Consider asking family and close friends to share a brief, heartfelt memory.

What military honors are commonly included in a memorial service script and how are they described?

Common military honors include the presentation of the folded American flag (often with an explanation of its symbolism), a firing party (a three-volley salute), playing Taps, and sometimes a posthumous medal presentation. The script should clearly indicate when these honors will occur and provide brief explanations for those unfamiliar with military traditions.

Who typically delivers the eulogy or remembrance at a military memorial service, and what should be included?

Eulogies are usually delivered by close family members, friends, or fellow service members. The content should focus on the service member's life, character, achievements, and the positive impact they had. It's important to strike a balance between honoring their military service and celebrating their life as an individual.

How do I incorporate religious or spiritual elements into a military memorial service script?

This depends on the deceased's beliefs and family wishes. Options include an invocation by a chaplain or clergy member, scripture readings, hymns, or prayers. The script should clearly denote these sections and allow for flexibility if specific religious traditions are to be followed.

What is the role of a military escort or honor guard in a memorial service script?

A military escort or honor guard provides solemnity and respect. Their presence is often formalized in the script, outlining their duties such as carrying the casket, performing the flag folding ceremony, or standing vigil. Their actions are a visible tribute to the service member's dedication.

How should a military memorial service script address the deceased's rank and branch of service?

The script should respectfully acknowledge the service member's rank and branch of service throughout. This can be done in introductions, when referring to their career, and during any military honors. Using their full military title can add to the solemnity and recognition of their service.

What are some respectful ways to conclude a military memorial service script?

A military memorial service script is typically concluded with a benediction or final prayer, often invoking peace and comfort. A final salute to the service member, perhaps with the sounding of Taps, can also be a powerful closing. The overall tone should be one of respectful farewell and remembrance.

Can a military memorial service script include a 'thank you' to attendees and those who served with the deceased?

Absolutely. It's customary and appropriate to include a thank you to attendees for their presence and support. Acknowledging and thanking those who served alongside the deceased is also a meaningful gesture that honors their shared experiences and camaraderie.

Where can I find examples or templates for a military memorial service script?

Examples and templates can be found through military funeral homes, veteran service organizations (like the VFW or American Legion), official military websites, and online resources dedicated to funeral planning and memorial services. It's important to adapt these templates to fit the specific needs and wishes of the family.

military memorial service script: American War Stories Brenda M. Boyle, 2020-11-13 American War Stories asks readers to contemplate what traditionally constitutes a “war story” and how that constitution obscures the normalization of militarism in American culture. The book claims the traditionally narrow scope of “war story,” as by a combatant about his wartime experience, compartmentalizes war, casting armed violence as distinct from everyday American life. Broadening “war story” beyond the specific genres of war narratives such as “war films,” “war fiction,” or “war memoirs,” American War Stories exposes how ingrained militarism is in everyday American life, a condition that challenges the very democratic principles the United States is touted as exemplifying.

military memorial service script: Forgotten Veterans, Invisible Memorials Allison S. Finkelstein, 2021-08-10 Investigates the groundbreaking role American women played in commemorating those who served and sacrificed in World War I In *Forgotten Veterans, Invisible Memorials: How American Women Commemorated the Great War, 1917–1945* Allison S. Finkelstein argues that American women activists considered their own community service and veteran advocacy to be forms of commemoration just as significant and effective as other, more traditional forms of commemoration such as memorials. Finkelstein employs the term “veteranism” to describe these women’s overarching philosophy that supporting, aiding, and caring for those who served needed to be a chief concern of American citizens, civic groups, and the government in the war’s aftermath. However, these women did not express their views solely through their support for veterans of a military service narrowly defined as a group predominantly composed of men and just a few women. Rather, they defined anyone who served or sacrificed during the war, including women like themselves, as veterans. These women veteranists believed that memorialization projects that centered on the people who served and sacrificed was the most appropriate type of postwar commemoration. They passionately advocated for memorials that could help living veterans and the families of deceased service members at a time when postwar monument construction surged at home and abroad. Finkelstein argues that by rejecting or adapting traditional monuments or by embracing aspects of the living memorial building movement, female veteranists placed the plight of all veterans at the center of their commemoration efforts. Their projects included diverse acts of service and advocacy on behalf of people they considered veterans and their families as they pushed to infuse American memorial traditions with their philosophy. In doing so, these women pioneered a relatively new form of commemoration that impacted American practices of remembrance, encouraging Americans to rethink their approach and provided new definitions of

what constitutes a memorial. In the process, they shifted the course of American practices, even though their memorialization methods did not achieve the widespread acceptance they had hoped it would. Meticulously researched, *Forgotten Veterans, Invisible Memorials* utilizes little-studied sources and reinterprets more familiar ones. In addition to the words and records of the women themselves, Finkelstein analyzes cultural landscapes and ephemeral projects to reconstruct the evidence of their influence. Readers will come away with a better understanding of how American women supported the military from outside its ranks before they could fully serve from within, principally through action-based methods of commemoration that remain all the more relevant today.

military memorial service script: *Perilous Memories* Takashi Fujitani, Geoffrey M. White, Lisa Yoneyama, 2001-06-21 *Perilous Memories* makes a groundbreaking and critical intervention into debates about war memory in the Asia-Pacific region. Arguing that much is lost or erased when the Asia-Pacific War(s) are reduced to the 1941-1945 war between Japan and the United States, this collection challenges mainstream memories of the Second World War in favor of what were actually multiple, widespread conflicts. The contributors recuperate marginalized or silenced memories of wars throughout the region—not only in Japan and the United States but also in China, Southeast Asia, the Pacific Islands, Okinawa, Taiwan, and Korea. Firmly based on the insight that memory is always mediated and that the past is not a stable object, the volume demonstrates that we can intervene positively yet critically in the recovery and reinterpretation of events and experiences that have been pushed to the peripheries of the past. The contributors—an international list of anthropologists, cultural critics, historians, literary scholars, and activists—show how both dominant and subjugated memories have emerged out of entanglements with such forces as nationalism, imperialism, colonialism, racism, and sexism. They consider both how the past is remembered and also what the consequences may be of privileging one set of memories over others. Specific objects of study range from photographs, animation, songs, and films to military occupations and attacks, minorities in wartime, "comfort women," commemorative events, and postwar activism in pursuing redress and reparations. *Perilous Memories* is a model for war memory intervention and will be of interest to historians and other scholars and activists engaged with collective memory, colonial studies, U.S. and Asian history, and cultural studies. Contributors. Chen Yingzhen, Chungmoo Choi, Vicente M. Diaz, Arif Dirlik, T. military memorial service script: *War Memories* Stéphanie A.H. Bélanger, Renée Dickason, 2017-05-31 *War Memories* explores the patchwork formed by collective memory, public remembrance, private recollection, and the ways in which they form a complex composition of observations, initiatives, and experiences. Offering an international perspective on war commemoration, contributors consider the process of assembling historical facts and subjective experiences to show how these points of view diverge according to various social, cultural, political, and historical perspectives. Encompassing the representations of wars in the English-speaking world over the last hundred years, this collection presents an extensive, yet integrated, reflection on various types of commemoration and interpretations of events. Essays respond to common questions regarding war memory: how and why do we remember war? What does commemoration tell us about the actors in wars? How does commemoration reflect contemporary society's culture of war?

military memorial service script: America's White Table Margot Theis Raven, 2013-08-15
The White Table is set in many mess halls as a symbol for and remembrance to service members fallen, missing, or held captive in the line of duty. Solitary and solemn, it is the table where no one will ever sit. As a special gift to her Uncle John, Katie and her sisters are asked to help set the white table for dinner. As their mother explains the significance of each item placed on the table Katie comes to understand and appreciate the depth of sacrifice that her uncle, and each member of the Armed Forces and their families, may be called to give. It was just a little white table... but it felt as big as America when we helped Mama put each item on it and she told us why it was so important. We use a Small Table, girls, she explained first, to show one soldier's lonely battle against many. We cover it with a White Cloth to honor a soldier's pure heart when he answers his country's call to duty. We place a Lemon Slice and Grains of Salt on a plate to show a captive soldier's bitter fate and the tears of families waiting for loved ones to return, she continued. We push an Empty Chair to the table for the missing soldiers who are not here... Margot Theis Raven has been a professional writer working in the fields of radio, television, magazines, newspapers, and children's books for 30 years. Margot's first children's book, *Angels in the Dust*, won five national awards, including an IRA Teacher's Choice Award. Her first book with Sleeping Bear Press, *Mercedes and the Chocolate Pilot*, was the runner-up for the 2004 Texas Bluebonnet Award. She lives with her family in Charleston, South Carolina. Mike Benny's illustrations have appeared in *Time*, *GQ*, *New Yorker* and *Sports Illustrated* Magazines. He has also been awarded two Gold Medals from the Society of Illustrators. This is Mike's first children's book. He lives in Austin, Texas with his wife Mary Ann and daughter Adele.

military memorial service script: Off the Air Christina Estes, 2024-03-26 Equal parts thought-provoking and entertaining, *Off the Air* introduces Jolene Garcia in Emmy Award-winning reporter Christina Estes's Tony Hillerman Prize-winning debut. Jolene Garcia is a local TV reporter in Phoenix, Arizona, splitting her time between covering general assignments—anything from a monsoon storm to a newborn giraffe at the zoo—and special projects. Stories that take more time to research and produce. Stories that Jolene wants to tell. When word gets out about a death at a radio station, Jolene and other journalists swarm the scene, intent on reporting the facts first. The body is soon identified as Larry Lemmon, a controversial talk show host, who died under suspicious circumstances. Jolene conducted his final interview, giving her and her station an advantage. But not for long. As the story heats up, so does the competition. Jolene is determined to solve this murder. It's an investigation that could make or break her career—if it doesn't break her first.

military memorial service script: Release a Man for Combat Michaela Hampf, 2010 Die etwa 150.000 Frauen, die im Zweiten Weltkrieg im Women's Army Corps Dienst taten, waren die ersten regulären Soldatinnen der US-Armee. Um männliche Soldaten für den Kampf freizusetzen, arbeiteten sie auch in traditionellen Männerbereichen, etwa als Mechanikerinnen oder Pilotinnen in den USA, Afrika, Europa und Südostasien. Die Autorin geht den Erfahrungen dieser Frauen nach, den militärischen und zivilen Diskursen über Soldatinnen im Militär und dem Umgang der Armee mit soldatischer Weiblichkeit und weiblicher Sexualität. Anhand von Regierungsdokumenten, Kriegsgerichtsprozessen, aber auch Selbstzeugnissen, Gedichten und Songs zeigt M. Michaela Hampf, wie umkämpft die Konstruktion der Soldatin in Amerika der vierziger Jahre war und bis heute ist.

military memorial service script: Memorializing Pearl Harbor Geoffrey M. White, 2016-03-31 Memorializing Pearl Harbor examines the challenge of representing history at the site of the attack that brought America into World War II. Analyzing moments in which history is re-presented—in commemorative events, documentary films, museum design, and educational programming—Geoffrey M. White shows that the memorial to the Pearl Harbor bombing is not a fixed or singular institution. Rather, it has become a site in which many histories are performed, validated, and challenged. In addition to valorizing military service and sacrifice, the memorial has become a place where Japanese veterans have come to seek recognition and reconciliation, where Japanese Americans have sought to correct narratives of racial mistrust, and where Native Hawaiians have challenged their ongoing erasure from their own land. Drawing on extended ethnographic fieldwork, White maps these struggles onto larger controversies about public history, museum practices, and national memory.

military memorial service script: United States Foreign Policy and the Prospects for Peace

Education Carl Mirra, 2008-03-31 In light of the United States' age of terrorism and the controversial involvement in the war in Iraq, U.S. policies toward diplomatic peace education are coming under increasing scrutiny. This book evaluates the prospects for effective U.S. peace education in the context of post-1945 U.S. foreign policy. The work first documents the disparity between U.S. pronouncements about protecting human rights and the country's systematic erosion of those rights in the international arena. Second, it evaluates the challenges that the war on terrorism poses for peace education and explores the importance of international treaties in upholding security. A final section explores new ways of thinking and relating that are ultimately necessary for the realization of nonviolent peacekeeping efforts. Designed as a resource text for U.S. educators, the text offers concrete proposals for addressing contentious foreign policy issues in the classroom and includes an appendix of primary documents and sample questions for easy use.

military memorial service script: *War & Homecoming* Travis L. Martin, 2022-07-26 In *War & Homecoming: Veteran Identity and the Post-9/11 Generation*, Travis L. Martin explores how a new generation of veterans is redefining what it means to come home. More than 2.7 million veterans served in Iraq and Afghanistan. Their homecomings didn't include parades or national celebrations. Instead, when the last US troops left Afghanistan, American veterans raised millions of dollars for the evacuation of Afghan refugees, especially those who'd served alongside them. This brand of selflessness is one reason civilians regard veterans with reverence and pride. The phrase thank you for your service is ubiquitous. Yet, one in ten post-9/11 veterans struggles with substance abuse. Fifteen to twenty veterans die by suicide every day. Veterans aged eighteen to thirty-four die at the highest rates, leading advocates to focus on concepts like moral injury and collective belonging when addressing psychic wounds. Martin argues that many veterans struggle due to decades of stereotyping and a lack of healthy models of veteran identity. In the American unconscious, veterans are treated as either the superficially praised hero or the victimized wounded warrior, forever defined by past accomplishments. They are often appropriated as symbols in competing narratives of national identity. *War & Homecoming* critically examines representations of veterans in patriotic rhetoric, popular media, literature, and the lives of those who served. From this analysis, a new veteran identity emerges—veterans as storytellers who reject stereotypes, claim their symbolic authority, and define themselves through literature, art, and service. Their dynamic approach to life after military service allows for continued growth, agency, individuality, and inspiring examples of resilience for others.

military memorial service script: *The Peace Protestors* Symon Hill, 2022-08-09 From Afghanistan to the Falklands, from Northern Ireland to Iraq, British troops are nearly always in action somewhere in the world. But whenever there is war, there will be people who resist it. Sometimes, they can draw on public sympathy. At other times, they stand alone against the crowd. Peace movements large and small have been a constant part of UK history, not least in the last 40 years. This book tells their stories. Drawing on interviews, fresh research and newly released government documents, the book sheds light on some of the most surprising and overlooked events of recent decades. Peace activists in the 1980s did not know that Margaret Thatcher's government feared that US troops on UK bases would fire on unarmed demonstrators. When the ceasefire came about in Northern Ireland, few noticed the peace work that Quakers had been doing behind the scenes for years. While the jingoistic atmosphere of the Falklands War is much remembered, there is less talk about the protests against it that saw more than 100 arrests at navy recruitment centres and public demonstrations. Four women who successfully disarmed a warplane in the 1990s were just a few of those to be acquitted after actions that could have resulted in years in prison. Apparent public support for the campaign against the Iraq war masked deep and bitter divisions amongst anti-war activists. Dissent and disobedience within the armed forces continues far from the public gaze. As recently as 2011, Michael Lyons was refused discharge from the Royal Navy despite developing a conscientious objection to war. He spent seven months in a military prison. This is a book that brings to life the realities of resistance by people whose refusal to conform has much to say about how we see the UK and British history today.

military memorial service script: A Story for All Americans Frank L. Grzyb, 2000 A Story for All Americans: Vietnam, Victims, and Veterans (formerly titled, Touched by the Dragon) details wartime accounts of average servicemen and women - some heroic, some frightening, some amusing, some nearly unbelievable. The work is a historical compendium of fascinating and compelling stories woven together in a theme format. What makes this book truly unique, however, is its absence of literary pretentiousness. Relating oral accounts, the veterans speak in a no-nonsense, matter-of-fact way. As seen through the eyes of the veterans, the stories include first-person experiences of infantry soldiers, a flight officer, a medic, a nurse, a combat engineer, an intelligence soldier, and various support personnel. Personalities emerge gradually as the veterans discuss their pre-war days, their training and preparation for Vietnam, and their actual in-country experiences. The stories speak of fear and survival: the paranoia of not knowing who or where the enemy was; the bullets, rockets, and mortars that could mangle a body or snuff out a life in an instant; and going home with a CMH - not the Congressional Medal of Honor, but a Casket with Metal Handles. The veterans also speak of friendships and simple acts of kindness. But more importantly, they speak of healing - both physical and mental.

military memorial service script: Final Salute Jim Sheeler, 2008-05-01 They are the troops that nobody wants to see, carrying a message that no military family ever wants to hear. Since the start of the war in Iraq, Marines like Major Steve Beck found themselves charged with a mission they never asked for and one for which there can be no training: casualty notification. In Final Salute, Pulitzer Prize-winning journalist Jim Sheeler weaves together the stories of the fallen, the broken homes they have left behind, and one man's effort to help heal the wounds of those left grieving. But it is not a book about war, politics, or liberal vs. conservative. Achingly beautiful and honest, it is a book that every American-every human-can embrace.

military memorial service script: Pure Grit Mary Cronk Farrell, 2014-02-25 "Farrell chronicles the harrowing story of U.S. Army and Navy nurses based in the Philippines during WWII . . . a memorable portrayal." —Booklist (starred review) In the early 1940s, young women enlisted for peacetime duty as U.S. Army nurses. But when the Japanese attack on Pearl Harbor in 1941 blasted the United States into World War II, 101 American Army and Navy nurses serving in the Philippines were suddenly treating wounded and dying soldiers while bombs exploded all around them. The women served in jerry-rigged jungle hospitals on the Bataan Peninsula and in underground tunnels on Corregidor Island. Later, when most of them were captured by the Japanese as prisoners of war, they suffered disease and near-starvation for three years. Pure Grit is a story of sisterhood and suffering, of tragedy and betrayal, of death and life. The women cared for one another, maintained discipline, and honored their vocation to nurse anyone in need—all 101 coming home alive. The book is illustrated with archival photographs and includes an index, glossary, and timeline. "Farrell doesn't spare her young readers any grim details . . . She includes the challenges these women faced and the joy they felt on returning home. As awful as history can be, now might be the right time to introduce the next generation to this important period." —The Washington Post "Young readers who enjoyed Tanya Lee Stone's Almost Astronauts: 13 Women Who Dared to Dream will also appreciate this story of courageous women whose story was nearly forgotten." —School Library Journal

military memorial service script: Multiple Translation Communities in Contemporary Japan Beverley Curran, Nana Sato-Rossberg, Kikuko Tanabe, 2015-04-17 Multiple Translation Communities in Contemporary Japan offers a collection of essays that (1) deepens the understanding of the cultural and linguistic diversity of communities in contemporary Japan and how translation operates in this shifting context and circulates globally by looking at some of the ways it is theorized and approached as a significant social, cultural, or political practice, and harnessed by its multiple agents; (2) draws attention to the multi-platform translations of cultural productions such as manga, which are both particular to and popular in Japan but also culturally influential and widely circulated transnationally; (3) poses questions about the range of roles translation has in the construction, performance, and control of gender roles in Japan, and (4) enriches Translation Studies by offering essays that problematize critical notions related to translation. In short, the essays in this book highlight the diversity and ubiquity of translation in Japan as well as the range of methods being used to understand how it is being theorized, positioned, and practiced.
