poems for nurses week: From Silence to Voice Bernice Buresh, Suzanne Gordon, 2013-05-15
For more than a decade, *From Silence to Voice* has been providing nurses with communication tools they can use to win the resources and respect they deserve. Now, in a timely third edition, authors Bernice Buresh and Suzanne Gordon focus on how nurses can describe and frame their work to seize unprecedented opportunities to advance their profession and lead improvements in health care systems. The authors, both journalists, argue that because nursing needs the support and cooperation of others to fulfill its potential, it is critical that nurses communicate the full scope of nursing practice. Nurses must go beyond describing nursing in terms of dedication and caring and articulate nurses' specialized knowledge and expertise. *From Silence to Voice* helps nurses explain their contributions to patient safety, satisfaction, and outcomes. It shows how nurses can communicate with various publics about important aspects of their work, such as how they master and employ complex medical technologies and regimens, and how they use their clinical judgment in life-and-death situations. Nurses and nursing organizations, the authors write, must go out and tell the public what nurses really do so that patients can actually get the benefit of their expert care. This comprehensively revised and updated third edition helps nurses use a range of traditional and social media to accurately describe the true nature of their work. Its analyses of images that are projected by nursing campaigns and its detailed guidance in helping nurses construct positive and powerful

narratives of their work make *From Silence to Voice* a must-read in nursing schools and organizations and by individual nurses in all areas of the profession. Because nurses are busy, many of the communication techniques in this book are designed to integrate naturally into nurses' everyday lives and to complement nurses' work with patients and families.

poems for nurses week: Visiting the Minotaur Claire Williamson, 2018 Claire Williamson's poems in *Visiting the Minotaur* are evidence of her adventures into the labyrinth of her past in a difficult and sometimes violent family. poems for nurses week: When My Brother Was an Aztec Natalie Diaz, 2012-12-04 I write hungry sentences, Natalie Diaz once explained in an interview, because they want more and more lyricism and imagery to satisfy them. This debut collection is a fast-paced tour of Mojave life and family narrative: A sister fights for or against a brother on meth, and everyone from Antigone, Houdini, Huitzilopochtli, and Jesus is invoked and invited to hash it out. These darkly humorous poems illuminate far corners of the heart, revealing teeth, tails, and more than a few dreams. I watched a lion eat a man like a piece of fruit, peel tendons from fascia like pith from rind, then lick the sweet meat from its hard core of bones. The man had earned this feast and his own deliciousness by ringing a stick against the lion's cage, calling out Here, Kitty Kitty, Meow! With one swipe of a paw much like a catcher's mitt with fangs, the lion pulled the man into the cage, rattling his skeleton against the metal bars. The lion didn't want to do it— He didn't want to eat the man like a piece of fruit and he told the crowd this: I only wanted some goddamn sleep . . . Natalie Diaz was born and

raised on the Fort Mojave Indian Reservation in Needles, California. After playing professional basketball for four years in Europe and Asia, Diaz returned to the states to complete her MFA at Old Dominion University. She lives in Surprise, Arizona, and is working to preserve the Mojave language.

poems for nurses week: *Seam* Tarfia Faizullah, 2014-03-06 The poems in this captivating collection weave beauty with violence, the personal with the historic as they recount the harrowing experiences of the two hundred thousand female victims of rape and torture at the hands of the Pakistani army during the 1971 Liberation War. As the child of Bangladeshi immigrants, the poet in turn explores her own losses, as well as the complexities of bearing witness to the atrocities these war heroines endured. Throughout the volume, the narrator endeavors to bridge generational and cultural gaps even as the victims recount the horror of grief and personal loss. As we read, we discover the profound yet fragile seam that unites the fields, rivers, and prisons of the 1971 war with the poet's modern-day hotel, or the tragic death of a loved one with the holocaust of a nation. Moving from West Texas to Dubai, from Virginia to remote villages in Bangladesh and back again, the narrator calls on the legacies of Willa Cather, César Vallejo, Tomas Tranströmer, and Paul Celan to give voice to the voiceless. Fierce yet loving, devastating and magical at once, *Seam* is a testament to the lingering potency of memory and the bravery of a nation's victims. Winner, Great Lakes Colleges Association New Writers Award, 2014 Winner, Binghamton University Milt Kessler Poetry Book Award, 2015 Winner, Drake University Emerging Writers Award, 2015

Men will learn how to age gracefully so they never rattle off an inappropriate dirty old man joke. poems for nurses week: The Caregiver Caroline Johnson, 2020-07-14 *The Caregiver* is Caroline Johnson's first full-length publication. It includes 50 poems that were inspired by the 15 years she devoted to taking care of her aging parents. The gathering includes free verse, lyrical poems, prose poetry and some formal verse. Many of the poems won contests and have been previously published in online print journals and anthologies. The poems touch on the topic of grieving but go beyond and focus on the many difficulties a caregiver experiences—both emotional and physical—yet also recognize the spiritual gifts that come with helping a loved one. Caregiving is a significant issue for our times and will only become more important as our population ages.

poems for nurses week: Tenderly Lift Me Jeanne Bryner, 2004 Those who teach the literature of medicine have questioned why there appears to be a lack of rich materials connecting nursing with the humanities. *Tenderly Lift Me* is a compassionate and complex combination of biography, photography, and poetry that gives nurses a voice. Author and poet Jeanne Bryner has gathered these biographical sketches of remarkable nurses, each accompanied by poetry, photographs and drawings. The complete text becomes a multigenre presentation, with each sketch commenting on and informing the others. This is the first book in the Literature and Medicine Series that concentrates on nurses' voices and their experiences with providing health care. It enhances and extends perspectives on how health care is understood and delivered by recognizing nurses as the primary care givers.

poems for nurses week: Florence Nightingale: The Crimean War Lynn McDonald, 2011-02-01 Florence Nightingale is famous as the “lady with the lamp” in the Crimean War, 1854—56. There is a massive amount of literature on this work, but, as editor Lynn McDonald shows, it is often erroneous, and films and press reporting on it have been even less accurate. The Crimean War reports on Nightingale’s correspondence from the war hospitals and on the staggering amount of work she did post-war to ensure that the appalling death rate from disease (higher than that from bullets) did not recur. This volume contains much on Nightingale’s efforts to achieve real reforms. Her well-known, and relatively “sanitized”, evidence to the royal commission on the war is compared with her confidential, much franker, and very thorough Notes on the Health of the British Army, where the full horrors of disease and neglect are laid out, with the names of those responsible.
