the heidi chronicles pdf: The Next Generation of Scientists in Africa Beaudry, Catherine, Mouton, Johann, 2018-11-23 Young scientists are a powerful resource for change and sustainable development, as they drive innovation and knowledge creation. However, comparable findings on young scientists in various countries, especially in Africa and developing regions, are generally sparse. Therefore, empirical knowledge on the state of early-career scientists is critical in order to address current challenges faced by those scientists in Africa. This book reports on the main findings of a three-and-a-half-year international project in order to assist its readers in better understanding the African research system in general, and more specifically its young scientists. The first part of the book provides background on the state of science in Africa, and bibliometric findings concerning Africa's scientific production and networks, for the period 2005 to 2015. The second part of the book combines the findings of a large-scale, quantitative survey and more than 200 qualitative interviews to provide a detailed profile of young scientists and the barriers they face in terms of five aspects of their careers: research output; funding; mobility; collaboration; and mentoring. In each case, field and gender differences are also taken into account. The last part of the book comprises conclusions and recommendations to relevant policy- and decision-makers on desirable changes to current research systems in Africa.

the heidi chronicles pdf: Wendy Wasserstein Jill Dolan, 2017-07-20 Playwright Wendy Wasserstein (1950–2006), author of *The Heidi Chronicles*, wrote topical, humorous plays addressing relationships among women and their families, taking the temperature of social moments from the 1960s onward to debate women's rightful place in their professional and personal lives. The playwright's popular plays continue to be produced on Broadway and in regional theaters around the country and the world. Wasserstein's emergence as a popular dramatist in the 1970s paralleled the emergence of the second-wave feminist movement in the United States, a cultural context reflected in the themes of her plays. Yet while some of her comedies and witty dramas were wildly successful, packing theaters and winning awards, feminists of the era often felt that the plays did not go far enough. Wendy Wasserstein provides a critical introduction and a feminist reappraisal of the significant plays of one of the most famous contemporary American women playwrights. Following a biographical introduction, chapters address each of her important plays, situating Wasserstein's work in the history of the US feminist movement and in a historical moment in which women artists continue to struggle for recognition.

the heidi chronicles pdf: News from Germany Heidi J. S. Tworek, 2019-03-11 Winner of the Barclay Book Prize, German Studies Association Winner of the Gomory Prize in Business History, American Historical Association and the Alfred P. Sloan Foundation Winner of the Fraenkel Prize, Wiener Library for the Study of Holocaust and Genocide Honorable Mention, European Studies Book Award, Council for European Studies To control information is to control the world. This innovative history reveals how, across two devastating wars, Germany attempted to build a powerful communication empire—and how the Nazis manipulated the news to rise to dominance in Europe and further their global agenda. Information warfare may seem like a new feature of our contemporary digital world. But it was just as crucial a century ago, when the great powers competed to control and expand their empires. In *News from Germany*, Heidi Tworek uncovers how Germans fought to regulate information at home and used the innovation of wireless technology to magnify their power abroad. Tworek reveals how for nearly fifty years, across three different political regimes, Germany tried to control world communications—and nearly succeeded. From the turn of the twentieth century, German political and business elites worried that their British and French rivals dominated global news networks. Many Germans even blamed foreign media for Germany's defeat in World War I. The key to the British and French advantage was their news agencies—companies whose power over the content and distribution of news was arguably greater than that wielded by Google or Facebook today. Communications networks became a crucial battleground for interwar domestic democracy and international influence everywhere from Latin America to East Asia. Imperial leaders, and their Weimar and Nazi successors, nurtured wireless technology to make news from Germany a major source of information across the globe. The Nazi mastery of global propaganda by the 1930s was built on decades of Germany's obsession with the news. *News from Germany* is not a story about Germany alone. It reveals how news became a form of international power and how communications changed the course of history.

Davis, distinguished professor emerita at the University of California Santa Cruz JAMES BEARD AWARD NOMINEE • IACP AWARD FINALIST • ONE OF THE BEST COOKBOOKS OF THE YEAR: The New Yorker, The Washington Post, Vogue, San Francisco Chronicle, Forbes, Food & Wine, Salon, Garden & Gun, Delish, Epicurious More than 100 beautifully simple recipes that teach you the basics of a great vegan meal centered on real food, not powders or meat substitutes—from the James Beard Award-winning chef and author of Afro-Vegan Food justice activist and author Bryant Terry breaks down the fundamentals of plant-based cooking in Vegetable Kingdom, showing you how to make delicious meals from popular vegetables, grains, and legumes. Recipes like Dirty Cauliflower, Barbecued Carrots with Slow-Cooked White Beans, Millet Roux Mushroom Gumbo, and Citrus & Garlic-Herb-Braised Fennel are enticing enough without meat substitutes, instead relying on fresh ingredients, vibrant spices, and clever techniques to build flavor and texture. The book is organized by ingredient, making it easy to create simple dishes or showstopping meals based on what’s fresh at the market. Bryant also covers the basics of vegan cooking, explaining the fundamentals of assembling flavorful salads, cooking filling soups and stews, and making tasty grains and legumes. With beautiful imagery and classic design, Vegetable Kingdom is an invaluable tool for plant-based cooking today. Praise for Vegetable Kingdom “In the great Black American tradition of the remix and doing what you can with what you got, my friend Bryant Terry goes hard at vegetables with a hip-hop eye and a Southern grandmama’s nature. To paraphrase Maya Angelou, Bryant wants us to know that once we know vegetables better, we will cook vegetables better. He ain’t lyin’.”—W. Kamau Bell, comedian, author, and host of the Emmy Award-winning series United Shades of America “[Terry’s] perspective is casual and family-oriented, and the book feels personal and speaks to a wide swath of cooks . . . each dish comes with a recommended soundtrack, completing his mission to provide an immersive, joyful experience.”—Publishers Weekly (starred review)

the heidi chronicles pdf: Drinking Coffee Elsewhere ZZ Packer, 2004-02-03 The acclaimed debut short story collection that introduced the world to an arresting and unforgettable new voice in fiction, from multi-award winning author ZZ Packer Her impressive range and talent are abundantly evident: Packer dazzles with her command of language, surprising and delighting us with unexpected turns and indelible images, as she takes us into the lives of characters on the periphery, unsure of where they belong. We meet a Brownie troop of black girls who are confronted with a troop of white girls; a young man who goes with his father to the Million Man March and must decide where his allegiance lies; an international group of drifters in Japan, who are starving, unable to find work; a girl in a Baltimore ghetto who has dreams of the larger world she has seen only on the screens in the television store nearby, where the Lithuanian shopkeeper holds out hope for attaining his own American Dream. With penetrating insight, ZZ Packer helps us see the world with a clearer vision. Fresh, versatile, and captivating, Drinking Coffee Elsewhere is a striking and unforgettable collection, sure to stand out among the contemporary canon of fiction.

the heidi chronicles pdf: Understanding Second Language Acquisition Lourdes Ortega, 2014-02-04 Whether we grow up with one, two, or several languages during our early years of life, many of us will learn a second, foreign, or heritage language in later years. The field of Second language acquisition (SLA, for short) investigates the human capacity to learn additional languages

in late childhood, adolescence, or adulthood, after the first language --in the case of monolinguals-- or languages --in the case of bilinguals-- have already been acquired. Understanding Second Language Acquisition offers a wide-encompassing survey of this burgeoning field, its accumulated findings and proposed theories, its developed research paradigms, and its pending questions for the future. The book zooms in and out of universal, individual, and social forces, in each case evaluating the research findings that have been generated across diverse naturalistic and formal contexts for second language acquisition. It assumes no background in SLA and provides helpful chapter-by-chapter summaries and suggestions for further reading. Ideal as a textbook for students of applied linguistics, foreign language education, TESOL, and education, it is also recommended for students of linguistics, developmental psycholinguistics, psychology, and cognitive science. Supporting resources for tutors are available free at www.routledge.com/ortega.

the heidi chronicles pdf: Imperial Leather Anne McClintock, 2013-10-01 Imperial Leather chronicles the dangerous liaisons between gender, race and class that shaped British imperialism and its bloody dismantling. Spanning the century between Victorian Britain and the current struggle for power in South Africa, the book takes up the complex relationships between race and sexuality, fetishism and money, gender and violence, domesticity and the imperial market, and the gendering of nationalism within the zones of imperial and anti-imperial power.

the heidi chronicles pdf: Golden Gulag Ruth Wilson Gilmore, 2007-01-08 Since 1980, the number of people in U.S. prisons has increased more than 450%. Despite a crime rate that has been falling steadily for decades, California has led the way in this explosion, with what a state analyst called the biggest prison building project in the history of the world. Golden Gulag provides the first detailed explanation for that buildup by looking at how political and economic forces, ranging from global to local, conjoined to produce the prison boom. In an informed and impassioned account, Ruth Wilson Gilmore examines this issue through statewide, rural, and urban perspectives to explain how the expansion developed from surpluses of finance capital, labor, land, and state capacity. Detailing crises that hit California's economy with particular ferocity, she argues that defeats of radical struggles, weakening of labor, and shifting patterns of capital investment have been key conditions for prison growth. The results—a vast and expensive prison system, a huge number of incarcerated young people of color, and the increase in punitive justice such as the three strikes law—pose profound and troubling questions for the future of California, the United States, and the world. Golden Gulag provides a rich context for this complex dilemma, and at the same time challenges many cherished assumptions about who benefits and who suffers from the state's commitment to prison expansion.

the heidi chronicles pdf: Science Literacy National Academies of Sciences, Engineering, and Medicine, Division of Behavioral and Social Sciences and Education, Board on Science Education, Committee on Science Literacy and Public Perception of Science, 2016-11-14 Science is a way of knowing about the world. At once a process, a product, and an institution, science enables people to both engage in the construction of new knowledge as well as use information to achieve desired ends. Access to science—whether using knowledge or creating it—necessitates some level of familiarity with the enterprise and practice of science: we refer to this as science literacy. Science literacy is desirable not only for individuals, but also for the health and well-being of communities and society. More than just basic knowledge of science facts, contemporary definitions of science literacy have expanded to include understandings of scientific processes and practices, familiarity with how science and scientists work, a capacity to weigh and evaluate the products of science, and an ability to engage in civic decisions about the value of science. Although science literacy has traditionally been seen as the responsibility of individuals, individuals are nested within communities

that are nested within societies—and, as a result, individual science literacy is limited or enhanced by the circumstances of that nesting. Science Literacy studies the role of science literacy in public support of science. This report synthesizes the available research literature on science literacy, makes recommendations on the need to improve the understanding of science and scientific research in the United States, and considers the relationship between scientific literacy and support for and use of science and research.

the heidi chronicles pdf: Going by the Book , The extent to which government should be involved with regulation in the private sector is much debated. More fundamentally, one might ask exactly what is regulation, why is it needed, how is it formulated, and how is it enforced? These questions are especially relevant at a time in United States history when federal involvement in spheres traditionally left to individuals is being widely debated on all sides of the political spectrum.

the heidi chronicles pdf: Twitter and Tear Gas Zeynep Tufekci, 2017-05-16 A firsthand account and incisive analysis of modern protest, revealing internet-fueled social movements' greatest strengths and frequent challenges To understand a thwarted Turkish coup, an anti-Wall Street encampment, and a packed Tahrir Square, we must first comprehend the power and the weaknesses of using new technologies to mobilize large numbers of people. An incisive observer, writer, and participant in today's social movements, Zeynep Tufekci explains in this accessible and compelling book the nuanced trajectories of modern protests—how they form, how they operate differently from past protests, and why they have difficulty persisting in their long-term quests for change. Tufekci speaks from direct experience, combining on-the-ground interviews with insightful analysis. She describes how the internet helped the Zapatista uprisings in Mexico, the necessity of remote Twitter users to organize medical supplies during Arab Spring, the refusal to use bullhorns in the Occupy Movement that started in New York, and the empowering effect of tear gas in Istanbul's Gezi Park. These details from life inside social movements complete a moving investigation of authority, technology, and culture—and offer essential insights into the future of governance.

the heidi chronicles pdf: Vegetable Literacy Deborah Madison, 2013-03-12 In her latest cookbook, Deborah Madison, America's leading authority on vegetarian cooking and author of *Vegetarian Cooking for Everyone*, reveals the surprising relationships between vegetables, edible flowers, and herbs within the same botanical families, and how understanding these connections can help home cooks see everyday vegetables in new light. Destined to become the new standard reference for cooking vegetables, *Vegetable Literacy*, by revered chef Deborah Madison, shows cooks that vegetables within the same family, because of their shared characteristics, can be used interchangeably in cooking. For example, knowing that dill, chervil, cumin, parsley, coriander, anise, and caraway come from the umbellifer family makes it clear why they're such good matches for carrots, also an umbel. With stunning images from the team behind Canal House cookbooks and website, and 150 classic and exquisitely simple recipes, such as Savoy Cabbage on Rye Toast with Gruyère Cheese; Carrots with Caraway Seed, Garlic, and Parsley; and Pan-fried Sunchokes with Walnut Sauce and Sunflower Sprouts; Madison brings this wealth of information together in dishes that highlight a world of complementary flavors.

the heidi chronicles pdf: The Indigenous Identity of the South Saami Håkon Hermanstrand, Asbjørn Kolberg, Trond Risto Nilssen, Leiv Sem, 2019-02-01 This open access book is a novel contribution in two ways: It is a multi-disciplinary examination of the indigenous South Saami people in Fennoscandia, a social and cultural group that often is overlooked as it is a minority

within the Saami minority. Based on both historical material such as archaeological evidence, 20th century newspapers, and postcard motives as well as current sources such as ongoing land-right trials and recent works of historiography, the articles highlight the culture and living conditions of this indigenous group, mapping the negotiations of different identities through the interaction of Saami and non-Saami people through the ages. By illuminating this under-researched field, the volume also enriches the more general debate on global indigenous history, and sheds light on the construction of a Scandinavian identity and the limits of the welfare state and the myth of heterogeneity and equality.

the heidi chronicles pdf: *Whither Space Power?* Simon P. Worden, John E. Shaw, 2005-01-01 The influence of space power pervades almost every sphere and level of human existence, from politics to military affairs to commercial activities to cultural mind-sets. Yet there is

little to be found today in the way of coherent space power doctrine and strategy, particularly in national security circles. To what extent do our national interests rely on space? How shall we defend our interests in space and how shall we deny our adversaries the benefits of space power in time of conflict? How can we control and exploit the space environment? How can we effectively wield space power against the full spectrum of threats -- from the lone terrorist to global peer competitors? What should be our long-range strategy and objectives if our goal is to achieve and maintain long-term space superiority? The purpose of this paper is two fold: first, to illuminate the historical and ever-increasing importance of space in modern society; and second, to prescribe, in view of this importance, the foundations of a strategy for achieving lasting space superiority and ensuring national and world security.
