Understanding the Black Awakening

The black awakening, as described by Russ Dizdar, refers to a spiritual phenomenon that involves the rise of dark, demonic, or occult influences within individuals or groups. This awakening contrasts with positive spiritual awakenings that emphasize enlightenment and growth. Instead, the black awakening represents a movement toward spiritual deception, bondage, and increased activity of malevolent forces. It is often characterized by a heightened awareness or experience of evil, darkness, or supernatural oppression.

This concept is rooted in the belief that spiritual realms interact with the physical world, and that awakenings can open doors to both light and darkness. The black awakening is viewed as a critical warning sign of escalating spiritual warfare and the need for vigilance and discernment.

Russ Dizdar's Background and Approach

Russ Dizdar is a well-known figure in the fields of spiritual warfare and deliverance ministry. With years of experience in researching demonic activity, occult practices, and spiritual warfare, Dizdar offers a scholarly and practical approach to understanding phenomena like the black awakening. His teachings combine biblical principles with real-world observations and case studies.

Dizdar's approach emphasizes the importance of recognizing spiritual deception and the tactics used by demonic forces to infiltrate and influence individuals and communities. He advocates for education, prayer, and spiritual authority as crucial tools in combating these influences.

Spiritual Warfare and Demonic Influence

Central to the concept of the black awakening is the theme of spiritual warfare, a battle between good and evil forces that affects believers and non-believers alike. Russ Dizdar highlights that demonic influence is a key aspect of this warfare, manifesting through possession, oppression, and manipulation.

This warfare is not merely metaphorical but involves real spiritual entities that seek to deceive, control, and destroy. The black awakening is seen as a surge in demonic activity aimed at destabilizing faith, promoting chaos, and drawing people away from spiritual truth.

Demonic Strategies in the Black Awakening

Demonic forces use various strategies during the black awakening to achieve their goals. These include:

- Deception through false teachings and ideologies
- Spreading fear, confusion, and despair
- Encouraging occult practices and rebellion against spiritual authority
- Targeting vulnerable individuals for possession or oppression
- Undermining community cohesion and spiritual health

Signs and Symptoms of the Black Awakening

Recognizing the black awakening is essential for effective response and protection. Russ Dizdar outlines several signs and symptoms that may indicate someone or a group is experiencing this dark spiritual phenomenon.

Behavioral and Spiritual Indicators

These signs can manifest in various ways, including:

- Sudden interest or involvement in occult or satanic practices
- Experiencing unexplained fear, anxiety, or depression
- Display of supernatural phenomena such as nightmares, voices, or visions with dark themes

- Withdrawal from positive spiritual influences and communities
- Increased hostility, rebellion, or self-destructive behavior

Awareness of these symptoms can help individuals and spiritual leaders identify those affected by the black awakening and initiate appropriate intervention.

Implications for Individuals and Communities

The black awakening carries significant implications for both individuals and broader communities. At the individual level, it can lead to spiritual bondage, mental health struggles, and broken relationships. For communities, the rise of such dark spiritual activity can result in increased social unrest, division, and moral decline.

Russ Dizdar emphasizes that unchecked black awakenings contribute to a larger spiritual and cultural crisis. This phenomenon can influence societal norms, promote occultism, and challenge religious institutions. Understanding these implications is vital for developing effective responses and fostering spiritual resilience.

Strategies for Recognition and Resistance

Combating the black awakening requires a multifaceted approach grounded in spiritual authority and knowledge. Russ Dizdar recommends several strategies for recognizing and resisting this phenomenon:

1. **Education:** Learning about spiritual warfare and demonic tactics to increase discernment.
2. **Prayer and Fasting:** Engaging in consistent spiritual disciplines to strengthen personal and communal defenses.
3. **Deliverance Ministry:** Seeking professional help for those exhibiting signs of demonic influence.
4. **Community Support:** Building strong spiritual communities that provide accountability and encouragement.
5. **Rejecting Occult Practices:** Avoiding involvement in any activities that open doors to demonic influence.

These strategies are essential in maintaining spiritual health and combating the negative impacts of the black awakening as outlined by Russ Dizdar.

the black awakening russ dizdar: The Genesis 6 Conspiracy Gary Wayne, 2020-09-15
Genesis 6 Conspiracy: There are giants among us, passing largely unnoticed, intent on carrying out a secret plan to enslave all humanity. They may not look like giants today, but their bloodlines extend all the way back to the Nephilim—the offspring of angels who mated with human women—described in Genesis 6 when giants roamed the land. Gary Wayne, author of The Genesis 6 Conspiracy: How Secret Societies and the Descendants of Giants Plan to Enslave Humankind, details the role of modern-day Nephilim in Satan's plan to install the Antichrist at the End of Days. When God cast the angel Lucifer and his followers out of heaven, Lucifer set into motion a scheme to ensure the Nephilim survived. Why? Because from the bloodlines of these Nephilim the Antichrist will come. To keep his plan alive, Satan has enlisted the loyalty of secret societies such as the Freemasons, the Templars, and the Rosicrucians to conspire in teaching a theology and a history of the world that is contrary to the biblical one. This Genesis 6 Conspiracy marches toward the Great Tribulation, when the loyalty of the Terminal Generation—this generation—will be tested. The Bible, along with many other ancient sources, clearly records the existence of giants. Wayne provides copious citations from many society insiders, along with extensive Bible references, other religious references, and historical material to bolster his contention. What he uncovers will astonish you—and it will challenge you to prepare for the fulfilling of God's promises. the black awakening russ dizdar: Programmed to Kill David McGowan, 2004 The specter of the marauding serial killer has become a relatively common feature on the American landscape. Reactions to these modern-day monsters range from revulsion to morbid fascination--fascination that is either fed by, or a product of, the saturation coverage provided by print and broadcast media, along with a dizzying array of books, documentary films, websites, and Movies of the Week. The prevalence in Western culture of images of serial killers (and mass murderers) has created in the public mind a consensus view of what a serial killer is. Most people are aware, to some degree, of the classic serial killer 'profile.' But what if there is a much different 'profile'--one that has not received much media attention? In Programmed to Kill, acclaimed and always controversial author David McGowan takes a fresh look at the lives of many of America's most notorious accused murderers, focusing on the largely hidden patterns that suggest that there may be more to the average serial killer story than meets the eye. Think you know everything there is to know about serial killers? Or is it possible that sometimes what everyone 'knows' to be true isn't really true at all?

Comic book superheroes have been influenced by the true heroes of our armed forces for decades. A veteran of Operation Iraqi Freedom, author Jason Inman re-discovered his childhood love of comic books during long days at the Tallil Air Base in southern Iraq. He started to wonder about the phenomenon of superhero service members. What kinds of soldiers were these fictional characters? And how were they changed by war? Super Soldiers looks at the intersection between war and pop culture to understand these questions and more. Each chapter revisits military comic book characters and compares them to personal stories from Inman's military career; describing superhero soldiers from DC comics and Marvel comics, including lesser-known characters lost to time.

the black awakening russ dizdar: *Convergence Culture Reconsidered* Claudia Georgi, Brigitte Johanna Glaser, 2015 Taking media scholar Henry Jenkins's concept of 'convergence culture' and the related notions of 'participatory culture' and 'transmedia storytelling' as points of departure, the essays compiled in the present volume provide terminological clarification, offer exemplary case studies, and discuss the broader implications of such developments for the humanities. Most of the contributions were originally presented at the transatlantic conference *Convergence Culture Reconsidered* organized by the editors at the Georg-August-Universität Göttingen, Germany, in October 2013. Applying perspectives as diverse as literary, cultural, and media studies, digital humanities, translation studies, art history, musicology, and ecology, they assemble a stimulating wealth of interdisciplinary and innovative approaches that will appeal to students as well as experts in any of these research areas.

the black awakening russ dizdar: *Final Fire* Thomas R. Horn, Larry Spargimino, Donna Howell, 2016-11-15 IS THE NEXT GREAT AWAKENING RIGHT AROUND THE CORNER? In the midst of intense global societal discord--persecution, rights activism, racial tension, intense political hostility, and the resurgence of anti-establishment counterculture--many have lost faith in governments and even in church leadership to provide answers and stability. But this feeling--this underlying sensation that pricks our national cognition with a constant needling, demanding to be fought against and yet powerful enough that it inspires hopeless demoralization--has occurred before. From the Bohemian Reformation of John Wycliffe and Jan Hus in the 1300s to the Jesus People of the 60s and 70s, every era ripe with public dejection and faith-drought foreshadowed spiritual awakenings. These often began in the unlikelyst of places by the most inconceivable of personalities, and then spread like uncontrollable brushfires across the land resulting in millions surrendering their hearts and lives to the Lord. As today's world becomes more desperate to experience such personal meaning and social healing, the world is inadvertently moving toward another Great Awakening! IN FINAL FIRE, YOU WILL LEARN: *How God used simple men, women, and youth of the past--unqualified by human and finite standards--to irreversibly change the world. *What practices were employed that reformed traditional religious rituals into personal relationships with Christ, and how those methods are poised to be repeated in the near future. *Why the age of social networking through virtual technology is keeping families and communities from real human relationships, how this relates to an international and spiritual hunger for revival, and how this very same technology will pave the way for an even vaster spreading of the Gospel. *Which current events are now contributing to the largescale unrest mankind all feels, and how this is lining up to unleash what these authors believe to be the Greatest Awakening yet! *Evidence from around the globe that the Awakening may have already started, and will be joined by growing demonstrations of miracles, healings, prophetic visions, and angels in the days just ahead!

the black awakening russ dizdar: *Zeitgeist 2025* Thomas R. Horn, 2021-07-15 Before and after the presidency of Donald Trump, the United States was--and now is again--on an intentional trajectory to fulfill what famous Freemason Manly P. Hall described as *The Secret Destiny of America*. Hall's book includes future national and global subservience to the god of Freemasonry, a

deity most Americans would not imagine when reciting the pledge of allegiance to one nation under God. Unknown to most Americans and certainly many Christians is the fact that the Great Seal of the United States is a prophecy hidden in plain sight by the Founding Fathers for more than two hundred years, foretelling the return of this terrifying, demonic god who seizes control of Earth in the New Order of the Ages. This supernatural entity was known and feared in ancient times by different names: Apollo, Osiris, and even farther back as Nimrod, whom Masons consider to be the father of their institution.

the black awakening russ dizdar: *When the Enemy Strikes* Charles F. Stanley, 2006-03-12 Your enemy is strong. The battle is real. Prepare for victory. Fear, discouragement, loneliness, anger, temptation. These struggles are common to every human. Yet not all circumstances or negative emotions originate within. They could be the result of a willful, coordinated assault of Satan. In *When the Enemy Strikes*, best-selling author Dr. Charles Stanley explores the often-overlooked reality of spiritual warfare?the tactics used by Satan to taunt, confuse, slander, and harm. Your adversary wants to crush your will, delay your promise, hinder your destiny, destroy your relationships, and lead you into sin. Dr. Stanley reveals how you should respond. The most important component of warfare, says Dr. Stanley, is the supremacy of God?both His sovereignty and His power. Practically, this means the battles you face are ultimately allowed by God to bring you to a place of greater reliance on Him. His strength crushes the enemy. This is a world of conflict between good and evil, of powers beyond the merely human. The battle is unavoidable, but take heart! God has given you the strength to stand.
