A revolutionary approach to making better-looking, better-tasting drinks. In Dave Arnold's world, the shape of an ice cube, the sugars and acids in an apple, and the bubbles in a bottle of champagne are all ingredients to be measured, tested, and tweaked. With *Liquid Intelligence*, the creative force at work in Booker & Dax, New York City's high-tech bar, brings readers behind the counter and into the lab. There, Arnold and his collaborators investigate temperature, carbonation, sugar concentration, and acidity in search of ways to enhance classic cocktails and invent new ones that revolutionize your expectations about what a drink can look and taste like. Years of rigorous experimentation and study—botched attempts and inspired solutions—have yielded the recipes and techniques found in these pages. Featuring more than 120 recipes and nearly 450 color photographs, *Liquid Intelligence* begins with the simple—how ice forms and how to make crystal-clear cubes in your own freezer—and then progresses into advanced techniques like clarifying cloudy lime juice with enzymes, nitro-muddling fresh basil to prevent browning, and infusing vodka with coffee, orange, or peppercorns. Practical tips for preparing drinks by the pitcher, making homemade sodas, and building a specialized bar in your own home are exactly what drink enthusiasts need to know. For devotees seeking the cutting edge, chapters on liquid nitrogen, chitosan/gellan washing, and the applications of a centrifuge expand the boundaries of traditional cocktail craft. Arnold's book is the beginning of a new method of making drinks, a problem-solving approach grounded in attentive observation and creative techniques. Readers will learn how to extract the sweet flavor of peppers without the spice, why bottling certain drinks beforehand beats shaking them at the bar, and why quinine powder and succinic acid lead to the perfect gin and tonic. *Liquid Intelligence* is about satisfying your curiosity and refining your technique, from red-hot pokers to the elegance of an old-fashioned. Whether you're in search of astounding drinks or a one-of-a-kind journey into the next generation of cocktail making, *Liquid Intelligence* is the ultimate standard—one that no bartender or drink enthusiast should be without.

the savvy cocktail book pdf: Cocktail Codex Alex Day, Nick Fauchald, David Kaplan, 2018-10-30 From the authors of the bestselling and genre-defining cocktail book *Death & Co*, *Cocktail Codex* is a comprehensive primer on the craft of mixing drinks that employs the authors' unique "root cocktails" approach to give drink-makers of every level the tools to understand, execute, and improvise both classic and original cocktails. JAMES BEARD AWARD WINNER • WINNER OF THE TALES OF THE COCKTAIL SPIRITED AWARD® FOR BEST NEW COCKTAIL OR BARTENDING BOOK • NAMED ONE OF THE BEST COOKBOOKS OF THE YEAR BY CHICAGO TRIBUNE "There are only six cocktails." So say Alex Day, Nick Fauchald, and David Kaplan, the visionaries behind the seminal craft cocktail bar *Death & Co*. In *Cocktail Codex*, these experts reveal for the first time their surprisingly simple approach to mastering cocktails: the "root recipes," six easily identifiable (and memorizable!) templates that encompass all cocktails: the old-fashioned, martini, daiquiri, sidecar, whisky highball, and flip. Once you understand the hows and whys of each "family," you'll understand why some cocktails work and others don't, when to shake and when to stir, what you can omit and what you can substitute when you're missing ingredients, why you like the drinks you do, and what sorts of drinks you should turn to—or invent—if you want to try something new. Praise for *Cocktail Codex* "Learn the template, and any cocktail you can think of is within reach."—*Food & Wine* "Too bad all college textbooks weren't this much fun."—*Garden & Gun* "A must for amateur and pro mixologists alike."—*Chicago Tribune* "If Dora the Explorer turned twenty-one, split herself into three people, and decided to write the Magna Carta of booze books, this would be the result. And, unlike every other book you'll read this year, *Cocktail Codex* is packed with actual knowledge you can use in the real world. Please, please, can *Cinema Codex* be next?"—Steven Soderbergh, filmmaker

period] illustrations by twelve different artists. A typical review of a cocktail follows the actual recipe: THE LAST WORD: Damrak Gin / Green Chartreuse / Luxardo Maraschino / Lime / Sugar This cocktail was introduced around here about thirty years ago by Frank Fogarty, who was very well known in vaudeville. He was called the 'Dublin Minstrel, ' and was a very fine monologue artist. So wrote Ted Saucier in 1951 when introducing this drink in Bottoms Up. Saucier credits the drink to the Detroit Athletic Club, and if the bartender's recollection is correct, that would place the Last Word as a Prohibition-era cocktail. If that's the case, then the Last Word is one of the finest cocktails to come out of that bleak period in American history. Four ingredients, two of them fairly exotic, working in equal parts to create perfect harmony.
