ubu roi pdf: *Alfred Jarry* Alastair Brotchie, 2015-08-21 This long-awaited biography of Alfred Jarry reconstructs a life both ubuesque and pataphysical. When Alfred Jarry died in 1907 at the age of thirty-four, he was a legendary figure in Paris—but this had more to do with his bohemian lifestyle and scandalous behavior than his literary achievements. A century later, Jarry is firmly established as one of the leading figures of the artistic avant-garde. Even so, most people today tend to think of Alfred Jarry only as the author of the play *Ubu Roi*, and of his life as a string of outlandish “ubuesque” anecdotes, often recounted with wild inaccuracy. In this first full-length critical biography of Jarry in English, Alastair Brotchie reconstructs the life of a man intent on inventing (and destroying) himself, not to mention his world, and the “philosophy” that defined their relation. Brotchie alternates chapters of biographical narrative with chapters that connect themes, obsessions, and undercurrents that relate to the life. The anecdotes remain, and are even augmented: Jarry's assumption of the “ubuesque,” his inversions of everyday behavior (such as eating backward, from cheese to soup), his exploits with gun and bicycle, and his herculean feats of drinking. But Brotchie distinguishes between Jarry's purposely playing the fool and deeper nonconformities that appear essential to his writing and his thought, both of which remain a vital subterranean influence to this day.

ubu roi pdf: *Under Blue Cup* Rosalind E. Krauss, 2024-02-06 A personal journey leads a celebrated critic to discover “knights of the medium,” contemporary artists who battle the aesthetic meaninglessness of the post-medium condition. In *Under Blue Cup*, Rosalind Krauss explores the relation of aesthetic mediums to memory—her own memory having been severely tested by a ruptured aneurysm that temporarily washed away much of her short-term memory. (The title, *Under Blue Cup*, comes from the legend on a flash card she used as a mnemonic tool during cognitive therapy.) Krauss emphasizes the medium as a form of remembering; contemporary artists in what she terms the “post-medium” condition reject that scaffolding. Krauss explains the historical emergence of the post-medium condition and describes alternatives to its aesthetic meaninglessness, examining works by “knights of the medium”—contemporary artists who extend the life of the specific medium. These artists—including Ed Ruscha, William Kentridge, Sophie Calle, Harun Farocki, Christian Marclay, and James Coleman—reinstate the recursive rules of a modernist medium by inventing what Krauss terms new technical supports, battling the aesthetic meaninglessness of the post-medium condition. The “technical support” is an underlying ground for aesthetic practice that supports the work of art as canvas supported oil paint. The technical support for Ruscha's fascination with gas stations and parking lots is the automobile; for Kentridge, the animated film; for Calle, photojournalism; for Coleman, a modification of PowerPoint; for Marclay, synchronous sound. Their work, Krauss argues, recuperates more than a century of modernist practice. The work of the post-medium condition—conceptual art, installation, and relational aesthetics—advances the idea that the “white cube” of the museum or gallery wall is over. Krauss argues that the technical support extends the life of the white cube, restoring autonomy and specificity to the work of art.

ubu roi pdf: *The Ubu Plays* Alfred Jarry, 2007-12-01 Alfred Jarry is regarded as one of the founders of modern avant-garde theatre— “Dada, Surrealism, Pataphysics, Theatre of Cruelty, the Absurd—all owe a debt to Jarry.” (Encore) This volume contains his three classic Ubu texts: *Ubu Roi*, *Ubu Cocu* and *Ubu Enchaîné*. Through the lucid translations of Connolly and Taylor, the reader comes to realize that the violent and loathsome Ubu is Jarry's dark metaphor for man in the modern age. As Ubu himself said, “We shall not have succeeded in demolishing everything unless we demolish the ruins as well.”

ubu roi pdf: *The Pataphysician's Library* Ben Fisher, 2000-01-01 The Pataphysician's Library is a study of aspects of 1890s French literature, with specific reference to the traditions of Symbolism and Decadence. Its main focus is Alfred Jarry, who has proved, perhaps surprisingly, to be one of the more durable fin-de-siècle authors. The originality of this study lies in its use of the enigmatic list of books termed the livres pairs, which appears in Jarry's 1898 novel *Gestes et Opinions du docteur Faustroll*, pataphysicien, his best-known prose work. The greatest interest of the livres pairs lies in a group of works by Jarry's friends and contemporaries, primarily Leon Bloy, Georges Darien, Gustave Kahn, Catulle Mendes, Josephin Madan, Rachilde, and Henri de Regnier. Several of these authors feature as the lords of islands visited by the pataphysician Dr Faustroll in his curious voyage around Paris. In conjunction with Jarry's own works, the contemporary livres pairs serve to illustrate the vibrant and experimental atmosphere in which these authors worked.

His works on sexuality, madness, the prison, and medicine are enduring classics. From 1971 until his death in 1984, Foucault gave public lectures at the famous Collge de France. These seminal events, attended by thousands, created the benchmarks for contemporary social enquiry. The lectures comprising *Abnormal* begin by examining the role of psychiatry in modern criminal justice, and its method of categorising individuals who resemble their crime before they commit it. Building on the themes of societal self-defence developed in earlier works, Foucault shows how defining normality became a prerogative of power in the nineteenth century, shaping the institutions—from the prisons to the family-meant to deal with monstrosity, whether sexual, physical, or spiritual. The Collge de France lectures add immeasurably to our appreciation and understanding of Foucault's thought.

ubu roi pdf: Spatiality and Subjecthood in Mallarmé, Apollinaire, Maeterlinck, and Jarry Leo Shtutin, 2019-02-14 This study explores the interrelationship between spatiality and subjecthood in the work of Stéphane Mallarmé, Guillaume Apollinaire, Maurice Maeterlinck, and Alfred Jarry. Concerned with various modes of poetry and drama, it also examines the cross-pollination that can occur between these modes, focusing on a range of core texts including Mallarmé's *Igitur* and *Un Coup de dés*; Apollinaire's 'Zone' and various of his calligrammes; Maeterlinck's early one-act plays: *L'Intruse*, *Les Aveugles*, and *Intérieur*; and Jarry's *Ubu roi* and *César-Antechrist*. The poetic and dramatic practices of these four authors are assessed against the broader cultural and philosophical contexts of the fin de siècle. The fin de siècle witnessed a profound epistemological shift: the Newtonian-Cartesian paradigm, increasingly challenged throughout the nineteenth century, was largely dismantled, with ramifications beyond physics, philosophy, and psychology. Chapter 1 introduces three foundational notions—Newtonian absolute space, the unitary Cartesian subject, and subject-object dualism—that were challenged and ultimately overthrown in turn-of-the-century science and art. Developments in theatre architecture and typographic design are examined against this philosophical backdrop with a view to establishing a diachronic and interdisciplinary framework of the authors in question. Chapter 2 focuses on the spatial dimension of Mallarmé's *Un Coup de dés* and Apollinaire's calligrammes—works which defamiliarise page-space by undermining various (naturalised) conventions of paginal configuration. In Chapter 3, the notion of liminality is implemented in an analysis of character and diegetic space as constructed in Jarry's *Ubu roi* and Maeterlinck's one-acts. Chapters 4 and Chapter 5 undertake a more abstract investigation of parallel inverse processes—the subjectivisation of space and the spatialisation of the subject—manifest not only in the works of Mallarmé, Maeterlinck, Apollinaire, and Jarry, but in the period's poetry and drama more generally.

ubu roi pdf: Communicating Vessels André Breton, 1997-01-01 What Freud did for dreams, André Breton (1896–1966) does for despair: in its distortions he finds the marvelous, and through the marvelous the redemptive force of imagination. Originally published in 1932 in France, *Les Vases communicants* is an effort to show how the discoveries and techniques of surrealism could lead to recovery from despondency. This English translation makes available the theories upon which the whole edifice of surrealism, as Breton conceived it, is based. In *Communicating Vessels* Breton lays out the problems of everyday experience and of intellect. His involvement with political thought and action led him to write about the relations between nations and individuals in a mode that moves from the quotidian to the lyrical. His dreams triggered a curious correspondence with Freud, available only in this book. As Caws writes, The whole history of surrealism is here, in these pages.

ubu roi pdf: Collected Works Antonin Artaud, 1968 Drama. Antonin Artaud is one of the two or three most influential innovators of the twentieth century, whose theoried, production ideas along with his writings and plays have brought a new poetic impulse and dynamic intensity to the stage, replacing the naturalistic theatre that preceded his own. In this volume of *COLLECTED WORK*, we see Artaud's early formulations of his theories on theatre in general, and the genesis of the theatre of cruelty. In particular, the volume contains the famous manifestos of the revolutionary Alfred Jarry Theatre, productions plans, notes and critical articles. Also included is a series of articles on literature and the plastic arts, written during the same period. The variety and humour of such a wide range of work certainly constitutes a fertile source for those seeking a new approach to theatre and its allied arts. Translated and with an introduction by Victor Corti.

ubu roi pdf: The Art of Manipulating Fabric Colette Wolff, 1996-10-01 The possibilities for three-dimensional manipulation of fabric - gathering, pleating, tucking, shirring, and quilting woven materials - are seemingly endless. To describe them all would be to describe the entire history of sewing. In *The Art of manipulating Fabric*, Colette Wolff has set herself just this task, and she succeeds brilliantly. Working from the simplest possible form - a flat piece of cloth and a threaded

needle - she categorizes all major dimensional techniques, show how they are related, and give examples of variations both traditional and modern. The result is an encyclopedia of techniques that resurface, reshape, restructure and reconstruct fabric. • More than 350 diagrams support the extensive how-tos, organized into broad general categories, then specific sub-techniques • Handsome photos galleries showcase the breathtaking possibilities in each technique and aid visual understanding by emphasizing the sculptured fabric surface with light and shadow • Textile artists and quilters, as well as garment and home decor sewers, will expand their design horizons with the almost limitless effects that can be achieved.

ubu roi pdf: *Imagine There's No Woman* Joan Copjec, 2004-09-17 A psychoanalytic and philosophical exploration of sublimation as a key term in Jacques Lacan's theories of ethics and feminine sexuality. Jacques Lacan claimed that his theory of feminine sexuality, including the infamous proposition, the Woman does not exist, constituted a revision of his earlier work on the ethics of psychoanalysis. In *Imagine There's No Woman*, Joan Copjec shows how Freud's ragtag, nearly incoherent notion of sublimation was refashioned by Lacan to become the key term in his ethics. To trace the link between feminine being and Lacan's ethics of sublimation, Copjec argues, one must take the negative proposition about the woman's existence not as just another nominalist denunciation of thought's illusions about the existence of universals, but as recognition of the power of thought, which posits and gives birth to the difference of objects from themselves. While the relativist position currently dominant insists on the difference between my views and another's, Lacan insists on this difference within the object I see. The popular position fuels the disaffection with which we regard a world in a state of decomposition, whereas the Lacanian alternative urges our investment in a world that awaits our invention. In the book's first part, Copjec explores positive acts of invention/sublimation: Antigone's burial of her brother, the silhouettes by the young black artist Kara Walker, Cindy Sherman's *Untitled Film Stills*, and Stella Dallas's final gesture toward her daughter in the well-known melodrama. In the second part, the focus shifts to sublimation's adversary, the cruelly uncreative superego, as Copjec analyzes Kant's concept of radical evil, envy's corruption of liberal demands for equality and justice, and the difference between sublimation and perversion. Maintaining her focus on artistic texts, she weaves her arguments through discussions of Pasolini's *Salo*, the film noir classic *Laura*, and the Zapruder film of the Kennedy assassination.

ubu roi pdf: *How to Be Idle* Tom Hodgkinson, 2013-07-30 Yearning for a life of leisure? In 24 chapters representing each hour of a typical working day, this book will coax out the loafer in even the most diligent and schedule-obsessed worker. From the founding editor of the celebrated magazine about the freedom and fine art of doing nothing, *The Idler*, comes not simply a book, but an antidote to our work-obsessed culture. In *How to Be Idle*, Hodgkinson presents his learned yet whimsical argument for a new, universal standard of living: being happy doing nothing. He covers a whole spectrum of issues affecting the modern idler—sleep, work, pleasure, relationships—bemoaning the cultural skepticism of idleness while reflecting on the writing of such famous apologists for it as Oscar Wilde, Robert Louis Stevenson, Dr. Johnson, and Nietzsche—all of whom have admitted to doing their very best work in bed. It's a well-known fact that Europeans spend fewer hours at work a week than Americans. So it's only befitting that one of them—the very clever, extremely engaging, and quite hilarious Tom Hodgkinson—should have the wittiest and most useful insights into the fun and nature of being idle. Following on the quirky, call-to-arms heels of the bestselling *Eat, Shoots and Leaves: The Zero Tolerance Approach to Punctuation* by Lynne Truss, *How to Be Idle* rallies us to an equally just and no less worthy cause: reclaiming our right to be idle.

ubu roi pdf: *Words and Worlds* Veena Das, Didier Fassin, 2021-05-10 Born in a time of anxiety, *Words and Worlds* examines some of the disquieting challenges that societies now face. Through an inquiry into a political lexicon of commonsense words, ranging from democracy and revolution to knowledge and authority, from inequality and toleration to war and power, the contributors to this book trouble the self-evidence of these terms, bringing into view the hidden transcripts and unexpected trajectories of many settled ideas, such as the human sense of belonging or the call for

openness and transparency in research and public life. The case studies conducted over five continents with the tools of eight different disciplines challenge the ethnocentric assumptions, false moralism, and cultural prejudices that underlie much discussion on corruption or even the virtue invested in resilience. The critique of the ubiquitous use of crisis to characterize our times shows how this framing obscures the unjust conditions of existence and the violence of everyday life.

Together the essays in this volume offer a fresh look at the deeply connected worlds we inhabit in solidarity and in discord. Contributors. He attended art school for a short while, but soon found that his talents and interest lay in poetry rather than painting. His father's love of reading aloud exposed Yeats early on to William Shakespeare, the Romantic poets and the pre-Raphaelites, and developed an interest in Irish myths and folklore. As a result, he became an instrumental figure in the Irish Literary Revival of the 20th Century that redefined Irish writing. In 1899 Yeats helped found the Irish National Theatre Society, which later became the famous Abbey Theatre of Dublin. He was awarded the Nobel Prize in Literature in 1923, and received honorary degrees from Queen's University (Belfast), Trinity College (Dublin), and the Universities of Oxford and Cambridge. In this volume we find one of Yeats' lesser-known works, *The Player Queen*.

ubu roi pdf: *The Five Continents of Theatre* Eugenio Barba, Nicola Savarese, 2019-02-11 The *Five Continents of Theatre* undertakes the exploration of the material culture of the actor, which involves the actors' pragmatic relations and technical functionality, their behaviour, the norms and conventions that interact with those of the audience and the society in which actors and spectators equally take part. The material culture of the actor is organised around body-mind techniques (see *A Dictionary of Theatre Anthropology* by the same authors) and auxiliary techniques whose variety concern: ■ the diverse circumstances that generate theatre performances: festive or civil occasions, celebrations of power, popular feasts such as carnival, calendar recurrences such as New Year, spring and summer festivals; ■ the financial and organisational aspects: costs, contracts, salaries, impresarios, tickets, subscriptions, tours; ■ the information to be provided to the public: announcements, posters, advertising, parades; ■ the spaces for the performance and those for the spectators: performing spaces in every possible sense of the term; ■ sets, lighting, sound, makeup, costumes, props; ■ the relations established between actor and spectator; ■ the means of transport adopted by actors and even by spectators. Auxiliary techniques repeat themselves not only throughout different historical periods, but also across all theatrical traditions. Interacting dialectically in the stratification of practices, they respond to basic needs that are common to all traditions when a performance has to be created and staged. A comparative overview of auxiliary

techniques shows that the material culture of the actor, with its diverse processes, forms and styles, stems from the way in which actors respond to those same practical needs. The authors' research for this aspect of theatre anthropology was based on examination of practices, texts and of 1400 images, chosen as exemplars.

ubu roi pdf: The Post-traumatic Theatre of Grotowski and Kantor Magda Romanska, 2014-10-01 Despite its international influence, Polish theatre remains a mystery to many Westerners. This volume attempts to fill in current gaps in English-language scholarship by offering a historical and critical analysis of two of the most influential works of Polish theatre: Jerzy Grotowski's 'Akropolis' and Tadeusz Kantor's 'Dead Class'. By examining each director's representation of Auschwitz, this study provides a new understanding of how translating national trauma through the prism of performance can alter and deflect the meaning and reception of theatrical works, both inside and outside of their cultural and historical contexts.

ubu roi pdf: Finding Nothing Gregory Betts, 2021-07-30 Experimental literature accelerated dramatically in Vancouver in the 1960s as the influence of New American poetics merged with the ideas of Marshall McLuhan. Vancouver poets and artists began thinking about their creative works with new clarity and set about testing and redefining the boundaries of literature. As new gardens in Vancouver explored the limits of text and language, some writers began incorporating collage and concrete poetics into their work while others delved deeper into unsettling, revolutionary, and Surrealist imagery. There was a presumption across the avant-garde communities that radical openness could provoke widespread socio-political change. In other words, the intermedia experimentation and the related destruction of the line between art and society pushed art to the frontlines of a broad socio-political battle of the collective imagination of Vancouver. Finding Nothing traces the rise of the radical avant-garde in Vancouver, from the initial salvos of the Tish group, through Blewointment's spatial experiments, to radical Surrealisms and new feminisms. Incorporating images, original texts, and interviews, Gregory Betts shows how the VanGardes signalled a remarkable consciousness of the globalized forces at play in the city, impacting communities, orientations, races, and nations.
