berlitz cruising and cruise ships 2023: Education, Human Rights and Peace in Sustainable

Development Maigul Nugmanova, Heimo Mikkola, Alexander Rozanov, Valentina Komleva, 2020-11-19 The aim of sustainable development is to balance our economic, environmental and social needs, allowing prosperity for current and future generations. Countries must be allowed to meet their basic needs of employment, food, energy, water and sanitation. There is a clear relationship between the three topics of the book: right to education has been recognized as a human right - education has a role in peace-building. Additionally, education, human rights and peace have a significant role in sustainable development. The United Nations have defined a broad range of internationally accepted rights, including civil, cultural, economic, political and social rights. However, this book demonstrates that there are still people and nations not respecting the Universal Declaration of Human Rights. Chapters from Brazil, Cameroon, Ethiopia, Kazakhstan, Israel, Peru, Russia and South-Africa cover topics like civil war, human abuses, the vulnerability of indigenous people, abortion, epilepsy, food security, lack of health equities in maternal and child health, and democracy or lack of it. We sincerely hope that this book will contribute to the joint pursuit of humanity to make the world better after we all get over the coronavirus pandemic.

berlitz cruising and cruise ships 2023: Wait and Sea Hans Rade, 2017-03-30 If you have been at sea for more than 26 years, you're bound to have a lot of stories to tell! This is particularly true for a man who has worked as waiter aboard cruise liners for more than two decades! In this book Mr. Rade - Johannes in real life - allows us the luxury of participating in his various experiences over the years. He narrates in a very lively and vivid manner and is candid about what impressed him the most. No matter whether he is recounting an anecdote regarding his initial cruise employee application or taking us on a wild romp throughout his career, stories involving the world champion and record holder in eating lobsters, the 'esteemed' colleagues who are always good for a joke, the numerous international, sometimes bizarre guests - Johannes always strikes the right tone. He makes you feel as though you are actually at his side in the restaurants or on the various decks aboard the ship. You will frequently laugh out loud at his outlandish antics. And even when he refers to serious topics such as the 'Man overboard' alarm, he addresses these subjects with compassion. Let this book take you away on an imaginary cruise to Jamaica, through the Panama Canal, to the Cayman Islands and numerous other destinations. And who knows - maybe this autobiographical tale will inspire you to take a real cruise some day. In any case Johannes's book will undoubtedly arouse your interest in a cruise and perhaps even tempt you to book one! A book, that should not be judged by the first few pages, a book that offers more and more incredible true stories as you read on and on !!!314

berlitz cruising and cruise ships 2023: Reich of the Black Sun Joseph P. Farrell, 2020-09-04 Why were the Allies worried about an atom bomb attack by the Germans in 1944? Why did the Soviets threaten to use poison gas against the Germans? Why did Hitler in 1945 insist that

holding Prague could win the war for the Third Reich? Why did US General George Patton's Third Army race for the Skoda works at Pilsen in Czechoslovakia instead of Berlin? Why did the US Army not test the uranium atom bomb it dropped on Hiroshima? Why did the Luftwaffe fly a non-stop round trip mission to within twenty miles of New York City in 1944? Reich of the Black Sun takes the reader on a scientific-historical journey in order to answer these questions. Arguing that Nazi Germany actually won the race for the atom bomb in late 1944, Reich of the Black Sun then goes on to explore the even more secretive research the Nazis were conducting into the occult, alternative physics and new energy sources. The book concludes with a fresh look at the Nazi Legend of the UFO mystery by examining the Roswell Majestic-12 documents and the Kecksburg crash in the light of parallels with some of the super-secret black projects being run by the SS. Reich of the Black Sun is must-reading for the researcher interested in alternative history, science, or UFOs!

berlitz cruising and cruise ships 2023: Marriage Migration in Asia Sari K. Ishii, 2016-02

berlitz cruising and cruise ships 2023: Cruise Business Development Alexis Papathanassis, 2016-04-20 This book addresses innovation management and product development in the cruise tourism industry. It explains how experience management has evolved from a strictly company-level, product- or service-focused tactical task to an industry-wide strategic challenge, and analyses the role of intangible reputational aspects of cruise experiences, as well as peripheral components and stakeholders, as increasingly important factors for customer acquisition and retention. Safety and risk issues are a central theme, as well as the cruise sector's environmental and socio-economic impacts. Lastly, the book considers the increasing size of cruise vessels and the accompanying standardisation of facilities and itineraries, in conjunction with the hybridisation of cruise passengers in connection with expanding the competitive boundaries and intensity of competition in the cruise sector. The book approaches these issues as more than a mere public relations campaign, recognising the fact that they have since become the very essence of strategic cruise business development.

berlitz cruising and cruise ships 2023: The Chicano Latino Literary Prize Stephanie Fetta, 2008-01-01 "David is mine!" Mrs. Renteria shouts out to her neighbors gathered about the dead but handsome young man found in the dry riverbed next to their homes in a Los Angeles barrio. "David?" Tiburcio asked. "Since when is his name David? He looks to me more like a ..." Tiburcio glanced at the man's face, "a Luis." Mrs. Renteria's neighbors call out a litany of names that better suit the mysterious corpse: Roberto, Antonio, Henry, Enrique, Miguel, Roy, Rafael. The very first winner of the Chicano / Latino Literary Prize in 1974, Ron Arias' "The Wetback" uses dark humor to reflect on the appearance of a dead brown man in their midst. This landmark collection of prize-winning fiction, poetry, and drama paints a historical and aesthetic panorama of Chicana/o and Latina/o letters over a twenty-five-year period beginning in 1974 and ending in 1999. Most, but not all, of the winning entries are featured in this anthology, which also includes second- and third-place winners, as well as honorable mentions. Now entering its thirty-first year, the award has recognized a wide variety of writers, from established ones such as Juan Felipe Herrera, Michael Nava, and Helena Maria Viramontes, to those that are lesser known. Many of the pieces in this anthology are considered to be foundational texts of Chicana/o and Latina/o literature, and those that are not as widely recognized deserve more serious study and attention. Presented in chronological order, the selected writings are primarily in English, although some are written in Spanish, and others in Spanglish. Some, like Francisco X. Alarcon's poem "Raices / Roots," appear in both languages: "Mis raices / las cargo / siempre / conmigo / enrolladas / me sirven / de almohada." "I carry / my roots / with me / all the time / rolled up / I use them / as my pillow." In addition to the diverse array of authors, styles, and genres, the works included in this collection cover a wide range of themes, from more political issues of ethnic, gender, and class.
