creflo dollar sermons pdf: Saving Jesus from the Church Robin R. Meyers, 2009-02-24

Countless thoughtful people are now so disgusted with the marriage of bad theology and hypocritical behavior by the church that a new Reformation is required in which the purpose of religion itself is reimagined. Meyers takes the best of biblical scholarship and recasts these core Christian concepts to exhort the church to pursue an alternative vision of the Christian life: Jesus as Teacher, not Savior Christianity as Compassion, not Condemnation Prosperity as Dangerous, not Divine Discipleship as Obedience, not Control Religion as Relationship, not Righteousness This is not a call to the church to move to the far left or to try something brand new. Rather, it is the recovery of something very old. Saving Jesus from the Church shows us what it means to be a Christian and how to follow Jesus' teachings today.

creflo dollar sermons pdf: The biblical and theological examination of prosperity theology

Basilius Kasera, 2013-09-10 Master's Thesis from the year 2012 in the subject Theology - Systematic Theology, grade: B, , course: Theology - Systematic Theology (Ethics), language: English, abstract: This thesis conducts a biblical and theological analysis of the prosperity theology's (PT) impact amongst the poor. The main problem is to seek ways of effectively responding to the biblical, theological, and ideological problems raised by PT in Namibia, without overlooking the social issues of poverty and suffering, which this theology claims to be solving. The subject under discussion is found in various denominations but especially amongst neo-Pentecostal churches and it is not a standardised theology. Through interacting with the various views of the proponents and opponents this research proposes that although PT may have certain positive aspects, it is a theology established upon faulty hermeneutics and is not helpful in providing biblically and theologically sound solutions to the problem of poverty. The research aims to show that Christians have a biblical mandate to care for the poor and to work towards assisting the poor to help themselves. However, we do not foresee a time in the here and now when poverty will be totally abolished. Living with this painful reality, we have the duty of continuously pointing people to the future hope in Christ. On the other hand, our looking to the future hope does not exempt us from doing our best in helping people in the here and now as God enables us. The research shows that the gospel is the hope for humanity and we should do away with methods and practices that do not have their roots in Scripture. Moreover, the church has a duty to warn against any theology that is conducted in an irresponsible manner and is given to reductionist arguments when it comes to providing solutions to human problems. Therefore, the research seeks to suggest biblical, theological and practical ways of responding to the issue of poverty and ministry to the poor.

creflo dollar sermons pdf: The Trojan Horse of Tithing Jonathan Paul Brenneman, 2020-08-14

The Trojan Horse Of Tithing is a plea to Christian leaders, written from a Charismatic/Pentecostal perspective. Jonathan Brenneman exposes the inherent problems with common tithe teachings, highlighting serious issues with even so-called grace tithing. He demonstrates how deception starts

subtly and documents the growing acceptance in mainstream Christianity of even overt teachings of salvation by tithing. Millions of people today now believe they will never even enter heaven without their tithes. No matter how much we try to dress tithe teachings up as grace, they continue to be the root of serious problems. The arguments contained here against the modern tithe tradition are thorough, compelling, and overwhelming. The gospel is worth giving not only our money, but even our lives to promote. However, modern tithe traditions have no place in this because they are not based on truth and misrepresent the way God relates to people. Rather than helping to advance, the gospel, they distort it. God is calling his church to get rid of the leaven and return to a powerful and pure gospel message! The Trojan Horse of Tithing is one of the most comprehensive overviews of multiple arguments against tithing. Few books make such a compelling case as to why tithing is incompatible with the gospel, or deal so thoroughly with less logical but emotionally powerful objections such as but tithing works! We include: -What could have possibly convinced strong proponents of tithing such as Derek Prince to change their minds? -Documentation and evidence of the extent of literal salvation by tithing doctrine in today's churches, and demonstration that this is the logical implication of even many of the most common so-called grace tithing teachings. -Dozens of serious logical problems with all of the common pro-tithing arguments. -A historical study on Melchizedek and the related terms El Elyon, Zedek, Salem, Heaven, and Earth. -11 commandments of God that churches regularly break for their tithe tradition. -9 serious problems with using Malachi as support for Christian tithing. -The history of tithing. -Contrast between the Babylonian tithe and the Jewish tithe. Which is our modern tithe tradition based on? -How the modern tithe tradition violates the statutes and the basic principles of the Jewish tithe. -What tithing and witchcraft have in common. -How tithing undermines Spirit-led giving. -How people are stepping into supernatural giving and supernatural provision without the tithe. -The historical and cultural context of ministerial support in scripture. -Why some of the world's most successful church planters see tithing as a hindrance to church multiplication. -How tithe teachings promote a poverty spirit. -A prophetic dream for the church.
