chasing vermeer pdf: *The Milkmaid by Johannes Vermeer* Walter A. Liedtke, 2009 In this catalogue for the exhibition, Walter Liedtke, Curator of Paintings at the Metropolitan, drawing on the Museum's five Vermeers, scenes by other Dutch masters in the Museum's collection, including Pieter de Hooch, Gabriel Metsu, Nicolaes Maes, and Emanuel de Witte, and several works on paper, places the picture in the context of the artist's brief career and relates it to contemporary developments in Dutch art. In addition to an extended discussion of the painting's provenance, he provides a detailed study of the composition, the several revisions made during the course of execution, and the subtle relationships between light and shadow, color, contour, and shape. And he proposes a most intriguing argument for an erotic subtext, pointing out that, like maids and kitchen

maids in earlier Netherlandish art, the figure in *The Milkmaid* was meant to attract the male viewer, to rouse in him temptation and restraint, desire and reservation, while the kitchen maid herself, endowed with traits typically reserved for higher-class women and surrounded by references to romance both literal and oblique, is presented as having amorous thoughts of her own.

chasing vermeer pdf: *Art Perception* David Cycleback, 2014-05-21 A complex and fascinating question is why do humans have such strong emotional reactions and human connections to art? Why do viewers become scared, even haunted for days, by a movie monster they know doesn't exist? Why do humans become enthralled by distorted figures and scenes that aren't realistic? Why do viewers have emotional attachments to comic book characters? The answer lies in that, while humans know art is human made artifice, they view and decipher art using the same often nonconscious methods that they use to view and decipher reality. Looking at how we perceive reality shows us how we perceive art, and looking at how we perceive art helps show us how we perceive reality. Written by the prominent art historian and philosopher Cycleback, this book is a concise introduction to understanding art perception, covering key psychological, cognitive science, physiological and philosophical concepts.

chasing vermeer pdf: Pieter de Hooch Wayne E. Franits, 2006 In the hush of early morning, a dutiful mother butters bread for her young son, who patiently stands at her side. This splendid painting captures a trivial moment in a family's daily routine and makes it almost sacrosanct. A Woman Preparing Bread and Butter for a Boy was executed by the Dutch painter Pieter de Hooch (1629-1684) between 1661 and 1663. The J. Paul Getty Museum's canvas is one of the artist's many pictures depicting women and children engaged in daily activities. This book examines the painting in relation to the artist's life and work, exploring his stylistic development and his complex relationship to other painters in the Dutch Republic. The author places the subject matter of the painting within the broader context of seventeenth-century Dutch concepts of domesticity and child rearing and ties it to social and cultural developments in the Netherlands during the second half of the seventeenth century.

chasing vermeer pdf: The Optical Unconscious Rosalind E. Krauss, 1994-07-25 *The Optical Unconscious* is a pointed protest against the official story of modernism and against the critical tradition that attempted to define modern art according to certain sacred commandments and self-fulfilling truths. The account of modernism presented here challenges the vaunted principle of vision itself. And it is a very different story than we have ever read, not only because its insurgent plot and characters rise from below the calm surface of the known and law-like field of modernist painting, but because the voice is unlike anything we have heard before. Just as the artists of the optical unconscious assaulted the idea of autonomy and visual mastery, Rosalind Krauss abandons the historian's voice of objective detachment and forges a new style of writing in this book: art history that insinuates diary and art theory, and that has the gait and tone of fiction. *The Optical Unconscious* will be deeply vexing to modernism's standard-bearers, and to readers who have accepted the foundational principles on which their aesthetic is based. Krauss also gives us the story that Alfred Barr, Meyer Shapiro, and Clement Greenberg repressed, the story of a small, disparate group of artists who defied modernism's most cherished self-descriptions, giving rise to an unruly,

disruptive force that persistently haunted the field of modernism from the 1920s to the 1950s and continues to disrupt it today. In order to understand why modernism had to repress the optical unconscious, Krauss eavesdrops on Roger Fry in the salons of Bloomsbury, and spies on the toddler John Ruskin as he amuses himself with the patterns of a rug; we find her in the living room of Clement Greenberg as he complains about smart Jewish girls with their typewriters in the 1960s, and in colloquy with Michael Fried about Frank Stella's love of baseball. Along the way, there are also narrative encounters with Freud, Jacques Lacan, Georges Bataille, Roger Caillois, Gilles Deleuze, and Jean-François Lyotard. To embody this optical unconscious, Krauss turns to the pages of Max Ernst's collage novels, to Marcel Duchamp's hypnotic Rotoreliefs, to Eva Hesse's luminous sculptures, and to Cy Twombly's, Andy Warhol's, and Robert Morris's scandalous decoding of Jackson Pollock's drip pictures as Anti-Form. These artists introduced a new set of values into the field of twentieth-century art, offering ready-made images of obsessional fantasy in place of modernism's intentionality and unexamined compulsions.

chasing vermeer pdf: *The Great Divergence* Kenneth Pomeranz, 2021-04-13 A landmark comparative history of Europe and China that examines why the Industrial Revolution emerged in the West The Great Divergence sheds light on one of the great questions of history: Why did sustained industrial growth begin in Northwest Europe? Historian Kenneth Pomeranz shows that as recently as 1750, life expectancy, consumption, and product and factor markets were comparable in Europe and East Asia. Moreover, key regions in China and Japan were no worse off ecologically than those in Western Europe, with each region facing corresponding shortages of land-intensive products. Pomeranz's comparative lens reveals the two critical factors resulting in Europe's nineteenth-century divergence—the fortunate location of coal and access to trade with the New World. As East Asia's economy stagnated, Europe narrowly escaped the same fate largely due to favorable resource stocks from underground and overseas. This Princeton Classics edition includes a preface from the author and makes a powerful historical work available to new readers.

Let's just say a life is at stake (mine) and leave it at that. So will you do it? Pretty please? You'll do it? Thank you! But please hurry! Time is of the essence and you can't wait any longer. You must WRITE THIS BOOK!

I certainly won't be telling you about how the kids stumble upon the Museum of Magic, where they finally meet the amazing Pietro! Oh, blast! I've done it again. Well, at least I didn't tell you about the missing Sound Prism, the nefarious Lord Pharaoh, or the mysterious creature born in a bottle over 500 years ago, the key to the biggest secret of all. I really can't help myself, now can I? Let's face it - if you're reading this, it's too late.

chasing vermeer pdf: Stigmata Hélène Cixous, 2002-01-31 Hélène Cixous -- author, playwright and French feminist theorist -- is a key figure in twentieth-century literary theory. Stigmata brings together her most recent essays for the first time. Acclaimed for her intricate and challenging writing style, Cixous presents a collection of texts that get away -- escaping the reader, the writers, the book. Cixous's writing pursues authors such as Stendhal, Joyce, Derrida, and Rembrandt, da Vinci, Picasso -- works that share an elusive movement in spite of striking differences. Along the way these essays explore a broad range of poetico-philosophical questions that have become characteristic of Cixous' work: * love's labours lost and found * feminine hours * autobiographies of writing * the prehistory of the work of art Stigmata goes beyond theory, becoming an extraordinary writer's testimony to our lives and times.
