dakshinamurthy stotram pdf: Vivekacudamani, the Crest Jewel of Discernment Sankara, 2012-07 What is Advaita Vedanta? What means or instruments does it utilize in its attempt to comprehend Reality? What is the nature of its aim? If we begin by answering these questions, we will be ready to follow with the right intelligence the message given by the great SANKARA in Vivekacudamani. The path which is outlined here is not for the majority, quite the contrary. It is for those who, having attained maturity, tend towards full Awakening. It is for those who want to bring about a profound revolution within themselves; and this requires an act of courage, of steadfastness and, at the same time, of great humility. Advaita Vedanta is for those who, tired of a long pilgrimage, have finally stopped and in the silence of their own hearts have decided to launch a powerful attack on that terrible and treacherous enemy who lives not outside of us but right within us, and thus realize full liberation from all psycho-physical conflict and bondage. As darkness and its effects vanish when the sun rises, so, when realization of non-dual beatitude dawns, do bondage and suffering vanish without a trace (Vivekacudamani, sutra 319) SANKARA has been one of the greatest philosophers of India. He dedicated his brief and intense life (788-820) to re-establish the authority of the ruti, to codify the Advaita Vedanta, the doctrine of Non-duality, and to anchor the Metaphysical Tradition of the Veda through the foundation of monasteries (matha) and monastic orders. With his bhasya (commentary) to the Upanisad, the Brahmasutra, and the Bhagavadgita, and with his own writings, Sankara has profoundly influenced not only India's philosophical development, but that of the entire world. RAPHAEL is author and Master in the Western Metaphysical Tradition as well as the Vedanta. For over 35 years, he has written a series of books on the pathway of Non-duality (Advaita). He has translated directly from the original Sanskrit and Edited a number of key Vedanta texts. His entire work is a conscious reunification of both Western and Eastern Traditions into Unity of Tradition.

dakshinamurthy stotram pdf: Chandogya Upanishad Charles Johnston, 2016-08-13 Charles Johnston's classic translation and commentary on one of the most profound of ancient sacred texts. The book also contains three introductory articles by Johnston, which shed much light on the Upanishads, their place in history, their influence and connection to other spiritual philosophies of the world. The great Upanishads were compiled as Instructions for disciples preparing for Initiation. They contain philosophical teaching, and also many stories, generally in the form of spirited dialogues, of great beauty and eloquence, or ironical, but always radiant with spiritual wisdom. If we think of what is here translated as a part of these Instructions, we shall have little difficulty in understanding its significance. . . . A single principle links together the great Upanishads and their diverse parts, like jewels strung on a golden thread: the oneness of the Soul and the Oversoul. When we have found the Soul, our inmost real Self, we have thereby found the Oversoul, the Supreme Self of all Being. This is the goal.-Charles Johnston

dakshinamurthy stotram pdf: The Bhagavad Gita Swami Sivananda, 1989 The Bhagavadgita is one phase of the Tripod of Indian philosophy and culture, the other two phases being the Upanishads and the Brahmasutras. While the Upanishads lay the foundation of the loftiest reach possible for humanity and the Brahmasutras logically elucidate the intricate issues involved in the Upanishads, the Bhagavadgita blends together the Transcendent and the Immanent features of the Ultimate Reality, bringing together into an integrated whole knowledge and action, the inner and the outer, the individual and the society, man and God, all which are portrayed as facets of a universal Operation, presenting entire life and all life as a perfectly complete organic wholeness, leaving nothing unsaid and attempting to solve every problem of life.

dakshinamurthy stotram pdf: The Ten Principal Upanishads , 2003-03 The Upanishads are a group of texts in Hindu sacred literature that are considered to reveal the ultimate truth and whose knowledge is considered to lead to spiritual emancipation. In the Upanishads, we find the finest flowering of the Indian metaphysical and speculative thought. They are utterances of seers who spoke out of the fullness of their illumined experience. Upanishad is derived from upa (near), ni (down) and sad (to sit). Hence, the term implies the pupils, intent on learning, sitting near the teacher to acquire knowledge and truth. There are over 200 Upanishads but the traditional number is 108. Of them, only 10 are the principal Upanishads: Isha, Kena, Katha, Prashan, Mundaka, Mandukya, Tattiriya, Aitareya, Chhandogya and Brihadaranyaka. This book is a forerunner in introducing these primary Upanishads to the uninitiated.
