il morandini 2020 pdf: *Moral and Political Values in Teacher Education over Time* Nick Mead, 2022-08-19 This collection brings together international teacher educators to employ a 'long view' of an historic and values-based dialectic in teacher education. The authors reflect how employing historical consciousness to look back can offer greater continuity to teachers' moral and political values within their training. The book draws on research from experienced teacher educators representing different historical, social and political contexts in North America, Europe, Asia as well in post-conflict South Africa. Within each section, the authors reflect on the development of the

moral and political values of pre-service and in-service teachers in an era of global neo-liberalism and how this is inextricably bound up with the narratives of professionals in the past within their own national context. Each chapter takes a 'long view' of the role of historical consciousness in informing the moral and political values of pre-service and in-service teachers, providing examples of how international teacher educators can collectively support one another in restoring a vibrant, values-based dialectic within the processes, pedagogies and provision of university and school-based training for which they are responsible. The 'long view' approach offers a compelling argument for the need to connect pre-service and in-service teachers' values and narrative to the legacy of professionals of the past. *Moral and Political Values in Teacher Education over Time* will be of great interest to researchers, academics and students in teacher education, comparative education and the history of education. It will also be of interest to international university and school-based teacher educators and policymakers in the field.

il morandini 2020 pdf: Digital Transformation in the Cultural and Creative Industries Marta Massi, Marilena Vecco, Yi Lin, 2020-12-28 This research-based book investigates the effects of digital transformation on the cultural and creative sectors. Through cases and examples, the book examines how artists and art institutions are facing the challenges posed by digital transformation, highlighting both positive and negative effects of the phenomenon. With contributions from an international range of scholars, the book examines how digital transformation is changing the way the arts are produced and consumed. As relative late adopters of digital technologies, the arts organizations are shown to be struggling to adapt, as issues of authenticity, legitimacy, control, trust, and co-creation arise. Leveraging a variety of research approaches, the book identifies managerial implications to render a collection that is valuable reading for scholars involved with arts and culture management, the creative industries and digital transformation more broadly.

il morandini 2020 pdf: Masculinity and Italian Cinema Sergio Rigoletto, 2014-07-04
Headline: A study of how Italian films re-envisage male identity in response to sexual liberation
Blurb: Italian cinema has traditionally used the trope of an inadequate man in crisis to reflect on the country's many social and political upheavals. *Masculinity and Italian Cinema* examines how this preoccupation with male identity becomes especially acute in the 1970s when a set of more diverse and inclusive images of men emerge in response to the rise of feminism and gay liberation. Through an analysis of the way Italian films explore anxieties about male sexuality and femininity, the book shows how such anxieties also intersect with particular preoccupations about national identity and political engagement. This is an essential study-tool to understand the multiple constructions of masculinity in Italian cinema, helping students and researchers to understand the work of some of Italy's most provocative filmmakers.
Key Features* Re-examines key Italian films, including Bernardo Bertolucci's *The Conformist*, Ettore Scola's *A Special Day*, Pier Paolo Pasolini's *Theorem* and Lina Wertmüller's *The Seduction of Mimi*, in the light of gender and queer theory.*
Covers the major thematic concerns, genres and stylistic traits of 1970s Italian political cinema*
Analyses the broader cultural context of 1970s Italy, including sections on Italian feminism, Gay liberation and the post-'68 social movements.
Key Words: Gender; Queer; Body; Gay; Feminism; Pier Paolo Pasolini; Bernardo Bertolucci; Lina Wertmüller; Nanni Moretti; Federico Fellini; Ettore Scola; Marco Ferreri.

il morandini 2020 pdf: Il terzo sesso Ines Testoni, 2023-06-02 Fin dalla sua comparsa, la specie umana è drasticamente divisa in due – assecondando nel corso dei millenni falsi pretesti e credenze religiose, linguistiche, culturali e sociali. Da una parte ci sono gli uomini: corpi forti e resistenti, eroi e divinità a cui asservirsi. Dall'altra le donne: corpi deboli e fragili, ancelle destinate a servire. Questa logica primitiva è finita per essere assunta come legge trascendente attribuendo alla natura e a Dio la responsabilità di ciò che invece è stato un mero progetto umano al maschile. Religioni e falsi miti hanno costruito da una parte uomini predisposti alla guerra, dall'altra donne votate all'obbedienza. Con *Il terzo sesso* Ines Testoni si interroga sull'origine di questo scisma di genere, sui sistemi di potere che lo hanno instaurato, e soprattutto sull'idea di subalternità che ha condizionato e piegato – e continua a condizionare e piegare – le vite di donne di tutte le epoche e i

continenti. Dopo aver scardinato gli stereotipi legati al «sesso debole», proseguendo nel solco tracciato dalle opere di Simone de Beauvoir e di Simone Weil, l'autrice espone la sua teoria del «terzo sesso»: per vivere il mondo di domani è necessario superare il binarismo uomo/donna, le distinzioni sessuali e linguistiche, e riconoscersi come individui capaci di vivere ed equilibrare al proprio interno le istanze di ambedue i sessi. Abitarne uno nuovo, fluido e plurale.

Venezia, 12 novembre 2019: un'acqua alta senza precedenti in un anno che ha visto bruciare l'Alaska e la Siberia e accentuarsi lo scioglimento dei ghiacciai della Groenlandia. Sono segni di un tempo inedito, in cui la minaccia del mutamento climatico si fa sentire con forza crescente sulla famiglia umana, suscitando la reazione dei giovani del movimento globale Fridays for Future. Un tempo che stiamo imparando a chiamare Antropocene, in cui la specie umana è diventata il principale fattore che muove la storia biologica e geologica del Pianeta. La stessa pandemia Covid-19 è legata anche a un'interazione ormai distorta con l'ambiente. Come abitare questo tempo? Come far fronte a mutamenti a livello di quella struttura ecosistemica planetaria che supporta la vita? Quali prospettive etiche si disegnano per orientarci alla sostenibilità e all'ecogiustizia? Per dare futuro all'umanità occorrono trasformazioni esigenti a livello dei comportamenti personali e sociali: una conversione ecologica, un cambiamento di rotta, una giusta transizione. Ma quali orizzonti teologici possono supportare tali processi?

Riusciamo davvero a vivere assieme? La pluralità religiosa è una delle grandi caratteristiche della tarda modernità, ma non sempre è facile trovare parole per valorizzarne la ricchezza. Spesso prevalgono gli attriti, che ostacolano la convivenza e sfociano talvolta nella violenza. Questo libro scommette su una prospettiva diversa – la stessa che anima l'enciclica Fratelli tutti di papa Francesco – ampiamente esplorata nell'introduzione e nei testi della prima parte. Scommette cioè sul fatto che al cuore delle religioni vi siano parole e risorse vitali, capaci di orientare alla convivenza nella pace, al riconoscimento del volto dell'altro, alla fraternità/sororità. Lo documentano i testi della parte centrale del volume, che danno la parola alle etiche delle diverse religioni, ascoltandone la diversità, grazie al contributo di testimoni o studiosi, per cogliere risonanze possibili e spazi per la convergenza e la collaborazione. Il percorso si completa con tre affondi conclusivi che esaminano nodi e potenzialità dell'incontro tra religioni in due ambiti eticamente critici: bioetica e cura della casa comune. Il testo nasce dalla riflessione condotta dalla Fondazione Lanza di Padova (Centro Studi in Etica), in collaborazione con la Facoltà Teologica del Triveneto e la Formazione Socio-Politica della diocesi di Padova. il morandini 2020 pdf: Inflammation-Associated Depression: Evidence, Mechanisms and Implications Robert Dantzer, Lucile Capuron, 2016-12-28 Inflammation has invaded the field of psychiatry. The finding that cytokines are elevated in various affective and psychotic disorders brings to the forefront the necessity of identifying the precise research domain criteria (RDoCs) that inflammation is responsible for. This task is certainly the most advanced in major depressive disorders. The reason is that a dearth of clinical and preclinical studies has demonstrated that inflammation can cause symptoms of depression and conversely, cytokine antagonists can attenuate symptoms of depression in medical and psychiatric patients with chronic low grade inflammation. Important knowledge has been gained on the symptom dimensions that inflammation is driving and the mechanisms of action of cytokines in the brain, providing new targets for drug research and development. The aim of the book "Inflammation-Associated Depression" is to present this field of research and its implications in a didactic and comprehensive manner to basic and clinical scientists, psychiatrists, physicians, and students at the graduate level.

il morandini 2020 pdf: The Cultural Identities of European Cities Katia Pizzi, 2010 Cities are both real and imaginary places whose identity is dependent on their distinctive heritage: a network of historically transmitted cultural resources. The essays in this volume, which originate from a lecture series at the Institute of Germanic & Romance Studies, University of London, explore the complex and multi-layered identities of European cities. Themes that run through the essays include: nostalgia for a grander past; location between Eastern and Western ideologies, religions and cultures; and the fluidity and palimpsest quality of city identity. Not only does the book provide different thematic angles and a variety of approaches to the investigation of city identity, it also emphasizes the importance of diverse cultural components. The essays presented here discuss cultural forms as various as music, architecture, literature, journalism, philosophy, television, film, myths, urban planning and the naming of streets.

il morandini 2020 pdf: Revival After the Great War Luc Verpoest, Leen Engelen, Rajesh Heynickx, Jan Schmidt, Pieter Uyttenhove, Pieter Verstraete, 2020-12-08 The challenges of post-war recovery from social and political reform to architectural design In the months and years immediately following the First World War, the many (European) countries that had formed its battleground were confronted with daunting challenges. These challenges varied according to the countries' earlier role and degree of involvement in the war but were without exception enormous. The contributors to this book analyse how this was not only a matter of rebuilding ravaged cities and destroyed infrastructure, but also of repairing people's damaged bodies and upended daily lives, and rethinking and reforming societal, economic and political structures. These processes took place against the backdrop of mass mourning and remembrance, political violence and economic crisis. At the same time, the post-war tabula rasa offered many opportunities for innovation in various areas of society, from social and political reform to architectural design. The wide scope of post-war recovery and revival is reflected in the different sections of this book: rebuild, remember, repair, and reform. It offers insights into post-war revival in Western European countries such as Belgium, France, the United Kingdom, Germany, Portugal, Spain, and Italy, as well as into how their efforts were perceived outside of Europe, for instance in Argentina and the United States.

il morandini 2020 pdf: Storia dell'idea di natura Paolo Vidali, 2022-02-09T00:00:00+01:00 Il libro affronta un concetto, quello di natura, tanto comune quanto poco esplorato. Luogo d'intensa riflessione nella filosofia antica, a partire dal Seicento la natura è divenuta sempre più oggetto di analisi scientifica. Ne è derivata una conoscenza vasta e approfondita, ma separata in discipline diverse e, alla fine, disinteressata a ricomporre una visione unitaria di natura. Oggi lo scenario è cambiato. La vastità dell'emergenza ambientale e la globalità della crisi ecologica richiedono un profondo ripensamento di cosa sia oggi la natura. Per farlo occorre affrontare le nuove categorie che scienza e filosofia hanno elaborato negli ultimi decenni, e utilizzarle per ricomporre una sua visione organica. Dopo essere stata "animale", "libro", "macchina", "magazzino", la natura oggi si presenta con un'immagine che ci coinvolge direttamente, quella di un ecosistema complesso, di cui l'umano è parte integrante, cosciente e responsabile.

il morandini 2020 pdf: Environment, Social Justice, and the Media in the Age of the Anthropocene Elizabeth G. Dobbins, Luigi Manca, Maria Lucia Piga, 2020-02-17 Environment, Social Justice, and the Media in the Age of Anthropocene addresses three imminent challenges to human society in the age of the Anthropocene. The first challenge involves the survival of the species; the second the breakdown of social justice; and the third the inability of the media to provide global audiences with an adequate orientation about these issues. The notion of the Anthropocene as a geological age shaped by human intervention implies a new understanding of the human context that influences the physical and biological sciences. Human existence continues to be affected by the physical and biological reality from which it evolved but, in turn, it affects that reality as well. This work addresses this paradox by bringing together the contributions of researchers from very different disciplines in conversation about the complex relationships between the physical/biological world and the human world to offer different perspectives and solutions in establishing social and environmental justice in the age of the Anthropocene.

il morandini 2020 pdf: International Wildlife Management John L. Koprowski, Paul R. Krausman, 2019-09-10 A call for wildlife conservationists to transcend the boundaries of locality, share best practices, and unite with a common voice to influence global policy. Habitat loss, disease management, predator-human conflict, illegal trade—these are among the many conservation challenges faced by wildlife experts around the world. But how wildlife professionals approach these issues has historically been geographically fragmented. By providing a broad perspective on issues faced by wildlife on an international scale, the authors of *International Wildlife Management* make vital connections, drawing attention to underlying causes and strategies for mitigation that may look surprisingly similar from Montana to Zimbabwe. Bringing together wildlife professionals from around the globe to discuss shared challenges, *International Wildlife Management* • examines widespread patterns of wildlife loss • covers key conservation strategies, including species reintroduction, community engagement, and wildlife commerce • explores the urgent concerns of climate change, habitat loss and fragmentation, invasive species, and poaching • reviews major organizations involved in wildlife management at an international level, highlighting examples of cooperation among groups and nations in effective wildlife management efforts • features stories of success and struggle from authors across 17 countries on 6 continents This timely and thorough overview thinks big by assessing threats to wildlife on a global scale. Wild creatures don't recognize artificial geographic borders. This useful compendium demonstrates that researchers and scientists should follow their lead.

il morandini 2020 pdf: Principles of Decoration in the Roman World Annette Haug, M. Taylor Lauritsen, 2021-04-19 This book explores the manner in which architectural settings and action contexts influenced the perception of decoration in the Roman world. Crucial to the relationship between ancient viewers and media was the concept of decor, a term employed by Vitruvius and other Roman authors to describe the appropriateness of particular decorative elements to the environment in which they were located. The papers in this volume examine a diverse range of decorated spaces, from press rooms to synagogues, through the lens of decor. In doing so, they shed new light on the decorative principles employed across Roman Italy and beyond.

il morandini 2020 pdf: The Changing Nature of Work National Research Council, Division of Behavioral and Social Sciences and Education, Commission on Behavioral and Social Sciences and Education, Committee on Techniques for the Enhancement of Human Performance: Occupational Analysis, 1999-09-07 Although there is great debate about how work is changing, there is a clear consensus that changes are fundamental and ongoing. *The Changing Nature of Work* examines the evidence for change in the world of work. The committee provides a clearly illustrated framework for understanding changes in work and these implications for analyzing the structure of occupations in both the civilian and military sectors. This volume explores the increasing demographic diversity of the workforce, the fluidity of boundaries between lines of work, the interdependent choices for how work is structured-and ultimately, the need for an integrated systematic approach to understanding how work is changing. The book offers a rich array of data and highlighted examples on: Markets, technology, and many other external conditions affecting the nature of work. Research findings on American workers and how they feel about work. Downsizing and the trend toward flatter organizational hierarchies. Autonomy, complexity, and other aspects of work structure. The committee reviews the evolution of occupational analysis and examines the effectiveness of the latest systems in characterizing current and projected changes in civilian and military work. The occupational structure and changing work requirements in the Army are presented as a case study.

il morandini 2020 pdf: From Building Information Modelling to Mixed Reality Cecilia Bolognesi, Daniele Villa, 2020-07-14 This book reports on the latest advances in using BIM modelling to achieve the semantic enrichment of objects, allowing them to be used both as

multidimensional databases – as comprehensive sources of information for finalizing various types of documentation in the building industry – and as modelling tools for the construction of virtual environments. Having advanced to a new stage of development, BIM modelling is now being applied in a range of increasingly complex contexts, and for various new purposes. This book examines the role that virtual reality and related technologies such as AI and IoT can play in preserving and disseminating our cultural heritage and built environment.

il morandini 2020 pdf: Wild Cats of the World Mel Sunkist, Fiona Sunkist, 2017-05-15 Did you know that European royalty once used cheetahs to hunt deer, or that caracals can capture birds by leaping six and a half feet straight up into the air from a standing start? Have you ever wondered whether domestic cats really do land on their feet when they fall, or how Canada lynx can stalk their prey in the winter without falling through the deep snow? Wild Cats of the World is a treasure trove of answers to questions like these, and many others, for anyone who's interested in learning more about the world's felids, including the ones with whom we share our homes. Mel and Fiona Sunkist have spent more than a decade gathering information about cats from every available source, many of them quite difficult to find, including scientific papers, descriptions of hunts, archeological findings, observations by naturalists and travelers, reports from government agencies, and newsletters from a wide variety of organizations. Weaving information from these sources together with their own experiences observing wild cats around the world, the Sunkists have created the most comprehensive reference on felids available. Each of their accounts of the 36 species of cat contains a description of the cat, including human interactions with it, as well as detailed data on its distribution, ecology and behavior, status in the wild, and efforts to conserve it. Numerous photographs, including more than 40 in full color, illustrate these accounts. Ranging from the two-pound black-footed cat to the five-hundred-pound tiger, and from the African serval with its satellite-dish ears to the web-footed fishing cat of Asia, Wild Cats of the World will fascinate and educate felid fans of any stripe (or spot).

il morandini 2020 pdf: Sepolture di prestigio nel bacino mediterraneo (secoli IV-IX).
Definizione, immagini, utilizzo Paolo de Vingo, Yuri A. Marano, Joan Pinar Gil, 2021-12-30 Il periodo compreso tra la tarda Antichità e l'alto Medioevo fu segnato da profonde trasformazioni che investirono ogni ambito della sfera sociale e culturale, ivi compresa quella funeraria. La diffusione del cristianesimo e l'arrivo di nuovi popoli sulla scena europea e mediterranea determinarono l'affermazione di inedite forme di autorappresentazione dei defunti e dei loro gruppi familiari, prime tra tutte l'uso della deposizione ad sanctos e delle sepolture con ricco corredo. A quasi quarant'anni dallo storico incontro di Créteil L'inhumation privilégiée du IVe au VIIIe siècle en Occident, il convegno di Pella si è voluto proporre come una rinnovata occasione di dibattito sugli usi sepolcrali delle popolazioni del mondo tardo e postromano, cercando di offrire una visione il più ampia possibile, in senso geografico e cronologico, dei fenomeni che investirono la sfera funeraria tra il IV e il IX secolo. I testi dei contributi e dei poster raccolti in questi due volumi intendono, dunque, apportare nuovi spunti di riflessione riguardo a uno dei temi più vivacemente dibattuti dall'archeologia e dalla storiografia degli ultimi anni.

il morandini 2020 pdf: Archeologia e Calcolatori, 33.2, 2022, 2022-11-07 Il volume 33.2 si apre con contributo di Valeria Della Valle e Paola Moscati in ricordo di Giovanni Adamo a un anno dalla scomparsa, in cui si ripercorre l'itinerario interdisciplinare dello studioso tra terminologia, lessicologia e informatica umanistica. Seguono 16 articoli proposti alla rivista da studiosi italiani e stranieri che illustrano l'applicazione delle tecnologie informatiche alle ricerche archeologiche nelle fasi di acquisizione, elaborazione e interpretazione dei dati. Tecniche di analisi statistica (Procrustes Analysis, algoritmi di riduzione della dimensionalità, cluster analysis per il telerilevamento), GIS e analisi spaziali per lo studio del territorio e delle città antiche e per ricreare la diffusione del suono nell'antichità, tecniche di rilievo tridimensionale e ricostruzioni virtuali, sistemi multimediali, sistemi di Intelligenza Artificiale e nuove soluzioni per l'editoria archeologica digitale contribuiscono a documentare le testimonianze del passato e a diffondere i risultati della ricerca scientifica. Chiude il volume la sezione dedicata alle Note e recensioni.

il morandini 2020 pdf: Snow, Dog, Foot Claudio Morandini, 2020-02-21 Adelmo Farandola doesn't like people. In summer he roams the valleys, his only company a talkative, cantankerous old dog and a young mountain ranger who, Adelmo Farandola suspects, is spying on him. When winter comes, man and dog are snowed in. With stocks of wine and bread depleted, they pass the time squabbling over scraps, debating who will eat the other first. Spring brings a more sinister discovery that threatens to break Adelmo Farandola's already faltering grip on reality: a man's foot poking out of the receding snow.

il morandini 2020 pdf: The Cambridge History of Medieval Monasticism in the Latin West Alison I. Beach, Isabelle Cochelin, 2020-01-09 Monasticism, in all of its variations, was a feature of almost every landscape in the medieval West. So ubiquitous were religious women and men throughout the Middle Ages that all medievalists encounter monasticism in their intellectual worlds. While there is enormous interest in medieval monasticism among Anglophone scholars, language is often a barrier to accessing some of the most important and groundbreaking research emerging from Europe. The Cambridge History of Medieval Monasticism in the Latin West offers a comprehensive treatment of medieval monasticism, from Late Antiquity to the end of the Middle Ages. The essays, specially commissioned for this volume and written by an international team of scholars, with contributors from Australia, Belgium, Canada, England, France, Germany, Italy, the Netherlands, Spain, Switzerland, and the United States, cover a range of topics and themes and represent the most up-to-date discoveries on this topic.

il morandini 2020 pdf: Black Moses Alain Mabankou, 2017-03-23 SHORTLISTED FOR THE SCOTT MONCRIEFF PRIZE It's 1970, and in the People's Republic of Congo a Marxist-Leninist revolution is ushering in a new age. But at the orphanage on the outskirts of Pointe-Noire where young Moses has grown up, the revolution has only strengthened the reign of Dieudonné Ngoulmoumako, the orphanage's corrupt director. So Moses escapes to Pointe-Noire, where he finds a home first with a larcenous band of Congolese Merry Men and then among the Zairian prostitutes of the Trois-Cents quarter. But the authorities won't leave Moses in peace, and intervene to chase both the Merry Men and the Trois-Cents girls out of town. All this injustice pushes poor Moses over

the edge. Could he really be the Robin Hood of the Congo? Or is he just losing his marbles? Vivid, exuberant and heartwarming, *Black Moses* is a vital new extension of Alain Mabankou's extraordinary, interlinked body of work dedicated to his native Congo, and confirms his status as one of our great storytellers.

il morandini 2020 pdf: Neurobiology of Psychiatric Disorders Thomas E Schlaepfer, Charles B. Nemeroff, 2012-07-09 This new volume in the Handbook of Clinical Neurology presents a comprehensive review of the fundamental science and clinical treatment of psychiatric disorders. Advances in neuroscience have allowed for dramatic advances in the understanding of psychiatric disorders and treatment. Brain disorders, such as depression and schizophrenia, are the leading cause of disability worldwide. It is estimated that over 25% of the adult population in North America are diagnosed yearly with at least one mental disorder and similar results hold for Europe. Now that neurology and psychiatry agree that all mental disorders are in fact, brain diseases, this volume provides a foundational introduction to the science defining these disorders and details best practices for psychiatric treatment. Provides a comprehensive review of the scientific foundations of psychiatric disorders and psychiatric treatment Includes detailed results from genetics, molecular biology, brain imaging, and neuropathological, immunological, epidemiological, metabolic, therapeutic and historical aspects of the major psychiatric disorders A must have reference and resource for neuroscientists, neurologists, psychiatrists, and clinical psychologists as well as all research scientists investigating disorders of the brain
